

Immune System Defense Against Viral Illness

Enduring Education

Presented By:

Brittini Prosdocimo, MSN, RN, BMTCN

Learning Objectives

- Review human immune system and its eradication of viral infection
- Identify the steps of viral replication leading to an infection
- Recall viral spread and transmission
- Describe different types of viruses, when they circulate, and seasonality of certain viruses
- Summarize factors which weaken and strengthen the immune system

Contact Hours

In support of improving patient care, the University of Pittsburgh is jointly accredited by the Accreditation Council for Continuing Medical Education (ACCME), the Accreditation Council for Pharmacy Education (ACPE), and the American Nurses Credentialing Center (ANCC), to provide continuing education for the healthcare team.

The maximum number of hours awarded for this Continuing Nursing Education activity is 1 contact hour.

To receive credit, the learner must view module, successfully pass knowledge assessment, and complete evaluation.

Disclosure of Conflicts of Interest

All individuals in a position to control the content of this education activity are required to disclose all relevant financial relationships with any proprietary entity producing, marketing, re-selling, or distributing health care goods or services, used on, or consumed by, patients.

The following information was provided:

Brittini Prosdocimo and the planning committee for this activity did not have any relevant financial relationships with a commercial interest.
