2021 Advances in Head and Neck Cancer Symposium

Saturday, Aug. 21

8 a.m. to 4:40 p.m.

Virtual Event

Program Goal

This symposium aims to provide health care professionals with increased knowledge about the standard of care, evaluation, and treatment, as well as future directions in the management of head and neck cancers. The event will include presentations and panel discussions on squamous cell carcinoma of the oral cavity, larynx, oropharynx, and hypopharynx, HPV-positive oropharyngeal cancer, recurrent/metastatic head and neck cancer, immunotherapy in head and neck cancer treatment, and survivorship for head and neck cancer patients.

Who Should Attend

Medical, radiation, and surgical oncologists, otolaryngologists, audiologists, speech therapists, dentists, primary care physicians, internal medicine physicians, family practice physicians, nurse practitioners, physician assistants, nurses, and other interested health care professionals.
