NOTE FROM OUR COURSE DIRECTOR

DEAR COLLEAGUES,

It is with great pleasure that we are holding our next **CASCADE: 2020 *Advances In Hemostasis & Thrombosis Conference*** on *Friday, May 1st* at the Sheraton Station Square.

Our annual conference remains a comprehensive, one-day event, concentrating on the latest science, trends, and recommendations for the prevention, diagnosis, and treatment of both thrombosis and hemostasis issues. By annually gathering physicians and health care professionals across multiple medical disciplines, our intent is to keep the attendees at the forefront of the latest information on these issues so they may better serve and care for the patients they see in their practices.

Our speakers and topics this year will provide an abundance of the latest information, allowing for provocative questions, lively discussion, cutting edge research, and scientific information. As the conference has continued to grow over the last 15 years, this is the first time we have been able to provide CE credits to pharmacists - so be sure to spread the word for anyone that may be interested.

If you require any further detailed information or have any questions, please contact: Deb Small by phone at **412-209-7320** or by e-mail at dsmall@itxm.org

As always, we look forward to seeing you at another exciting event on **Friday May 1, 2020 at the Sheraton Station Square.**

Warm regards,
