The North American Society for the Study of Personality Disorders (NASSPD)
2021 Annual Conference
(MD71)

April 16-17, 2021

Friday, April 16, 2021 – 8:45 am to 5:35 pm
Saturday, April 17, 2021 – 8:30 am to 5:05 pm

Virtual Zoom Event

Course Director
Stephanie Stepp, PhD
NASSPD President, 2019-2021
NASSPD 2021 Annual Conference
Zoom Event
April 16-17, 2021

Introduction
The North American Society for the Study of Personality Disorders (NASSPD) is an organization devoted to research concerning personality disorders.

During the past decade, the view of personality disorders has changed dramatically. Rather than being seen as chronic conditions, it has been found that they have a particularly good symptomatic outcome. We are committed to further research on these disorders. We are also committed to informing clinicians, patients, and their family members about the latest information concerning this set of disorders. Finally, we are committed to aggressively advocating for the funding that these common but disabling disorders deserve. As we move forward, we look to established leaders in the field for guidance. We also hope to cultivate a new generation of researchers who will advance the field and by doing so, will lessen the suffering of these challenging patients.

The two-day conference will be for learning and networking. NASSPD is committed to informing others about the latest in personality disorder research. From inspiring keynotes to engaging workshops and presentations, NASSPD 2021 is the place to discover all this year’s most buzzworthy breakthroughs in the field. Continuing education credits and continuing medication education credits will be available.

Expand your network and connect with both new and established leaders across the field of personality disorder research. NASSPD is not just an opportunity to learn, but the foremost opportunity to make lasting connections with others across the discipline.

Who Should Attend
Psychiatrists, clinical and research psychologists, social workers, psychiatric residents, and psychology interns.

Conference Learning Objectives
At the completion of the program, participants will be able to:

1. Describe the underlying neurobiological findings that correlates with suicide risk and will develop an algorithm to manage this risk in patients with personality.
2. Describe how to match patient characteristics with specific forms of psychotherapy and select appropriate psychosocial treatments for the personality disorders.
3. Implement an action plan to more effectively engage family members in the discussion of diagnosis and prognosis with their loved one with a personality disorder.

Participating Sponsors:

McLean Hospital offers exceptional care for adolescents and adults who are living with borderline personality disorder and coexisting diagnosis and symptoms such as depression, anxiety, addiction, and trauma. A top-rated hospital by U.S. News & World Report, McLean provides comprehensive, diagnostic assessment and compassionate, patient-centered treatment. Learn more about McLean’s world-class approach to borderline personality disorder care.

8th Annual Conference Agenda

Friday, April 16, 2021

8:15-08:45  Sign in to Zoom
08:45-09:00  Opening Remarks
Stephanie Stepp, PhD, NASSPD President, University of Pittsburgh

09:00-09:45  Plenary Session - Advances in Personalized Treatment for Borderline Personality Disorder
Shelley McMain, PhD, Centre for Addiction and Mental Health

09:45-10:00  Break

10:00-11:20  Parallel Sessions
What Works and Why? Mechanism-Focused Treatment of Borderline Personality Disorder
Chair: Julianne Wilner Tirpak, MA, Boston University
Discussant: Kim Gratz, PhD, University of Toledo
  •  Does DBT result in module-specific symptom change? The role of emotion regulation skills in changing symptoms across domains
  Jennifer Cheavens, PhD, The Ohio State University
  •  A multi-study examination of emotional clarity as a BPD treatment mechanism
  Skye Fitzpatrick, PhD, York University
  •  Theories of borderline personality disorder: A mechanistic evaluation
  Julianne Wilner Tirpak, MA, Boston University
  •  Isolating mechanisms in the treatment of borderline personality disorder
  Shannon Sauer-Zavala, PhD, University of Kentucky

Hierarchical Taxonomy of Psychopathology (HiTOP): Personality—Psychopathology Connections
Discussant: Lee Anna Clark, PhD, University of Notre Dame
  •  HiTOP and Criterion A of the AMPD
  Thomas Widiger, PhD, University of Kentucky
  •  Higher order dimensions of psychopathology and borderline personality disorder symptoms in partial hospitalization patients
  Christopher Conway, PhD, Fordham University
  •  Development of measures to assess the Hierarchical Taxonomy of Psychopathology (HiTOP): Integration of personality pathology with psychiatric symptomatology
  Leonard Simms, PhD, The State University of New York at Buffalo
  •  Linking structure and function: The hierarchy of personality and psychopathology in daily life
  Aidan Wright, PhD, University of Pittsburgh

Dialectical Behavior Therapy 2021—New Directions and Novel Adaptations
Chair: Marianne Goodman, MD, James J Peters VAMC
Discussant: Shelley McMain, PhD, Centre for Addiction and Mental Health
  •  Skills-Based group interventions adaptations for suicide prevention and covid-19 distress
  Marianne Goodman, MD, James J Peters VAMC
  •  A modified DBT program for dysregulated treatment court participants
  Emily Edwards, PhD, James J Peters VAMC
  •  DBT for suicidal and emotionally dysregulated male teens in a residential setting: During COVID and beyond
  Candace K. Eddy, LICSW; Alan E. Fruzzetti, PhD, McLean Hospital/Harvard Medical School
11:20-12:20 Parallel Sessions

Individual Paper Presentations (Personality Disorder Symptoms and Treatment)

• Tailoring social support strategies to individuals with borderline personality features
  Stella Nicolaou, BA, MS, Gettysburg College and University of Barcelona

• The Dynamics of Reasons for Living and Suicidal Ideation in Borderline Personality Disorder
  Aliona Tsypes, PhD, University of Pittsburgh

• Borderline personality and related pathologies as a network of temporally connected symptoms
  Haya Fatimah, MA, University of South Florida

Modeling Personality Pathology: Novel Applications of Quantitative Methods

Chair: Jessica Peters, PhD, Brown University

• Borderline personality disorder symptom networks in adults and adolescents: Reliability of network features across clinical samples
  Jessica Peters, PhD, Brown University

• Contrasting multiple quantitative approaches to identifying core components of Cluster B pathology
  Michael Crowe, MA, Brown University

• The structure of psychopathology in clinically referred early adolescents: Objectives for new research and qualified evidence of a general psychopathology factor
  Vera Vine, PhD, University of Pittsburgh

Physical Health, Functioning, and Borderline Personality Disorder

Chair: Mary Zanarini, EdD, Harvard Medical School/McLean Hospital
Discussant: Joel Paris, MD, McGill University

• Severity of physical pain and its interference in psychosocial functioning reported by patients with borderline personality disorder and personality-disordered comparison subjects followed prospectively over a decade
  Mary Zanarini, EdD, Harvard Medical School/McLean Hospital

• Longitudinal description and prediction of smoking among borderline patients: An 18-year follow-up study
  Marcelo Brañas, MD, University of São Paulo

• The relationship between psychosocial impairment, health status, and borderline personality disorder over time
  Frances Frankenburg, MD, Boston University School of Medicine

12:20-13:20 Lunch

13:20-14:05 Plenary Session - Crossing the alphabet divide: DBT, MBT, ST, TFP, and GPM for BPD

Kenneth Levy, Pennsylvania State University
14:05-15:25  Parallel Sessions
New Constructs in Developmental Affect Dysregulation: Capturing Transdiagnostic and Symptom-Specific Risk for Psychopathology

- **Bridging body and mind in emotion experience: Individual differences in cardiac-subjective affect concordance and psychopathology**
  Vera Vine, PhD, University of Pittsburgh
- **Understanding the disconnect between physiological arousal and subjective experience among youth with externalizing problems and callous-unemotional traits**
  Amy Byrd, PhD, University of Pittsburgh
- **The psychiatric, behavioral, and neural correlates of early childhood overcontrol**
  Kristen Gilbert, PhD, Washington University School of Medicine
- **Physiological activation during the processing of dysphoric affect by youths at high and low familial risk for depression**
  Shimrit Daches, PhD, Bar-Ilan University

Emotion is the Mechanism: The Role of Emotional Responses and Regulation Strategies Within Transdiagnostic Personality Dysfunction

*Chair:* Kibby McMahon, MA, Duke University

*Discussant:* Shannon Sauer-Zavala, PhD, University of Kentucky

- **Considering the role of emotion regulation and anxiety in misophonia and personality disorders**
  Clair Robbins, PhD, Duke University Medical Center
- **A day in the life of borderline personality disorder: Hour-by-hour associations between emotions and emotion regulation behaviors**
  Matthew Southward, PhD, University of Kentucky
- **The naturalistic unfolding of emotions in borderline personality disorder: From prompting events to unique behaviors**
  Nicole Cardona, MA, Boston University
- **The impact of a brief, emotion regulation intervention on the ability to perceive other people’s emotions in a transdiagnostic sample.**
  Kibby McMahon, MA, Duke University

Thorny Problems in the Clinical Treatment of Borderline Personality Disorder

*Chair:* Sarah Fineberg, MD, PhD, Yale University

- **Augmenting risk management: Practical applications of Transference-Focused Psychotherapy (TFP) principles**
  Richard Hersh, MD, Columbia University College of Physicians and Surgeons
- **Deprescribing in borderline personality disorder**
  Sarah Fineberg, MD, PhD, Yale University
- **Thorny issues in educating residents to treat BPD**
  Daniel Price, MD, Tufts University School of Medicine/Maine Medical Center

15:25-15:40  Break

15:40-16:15  Speed Data-ing Talks

- **Borderline personality disorder features and memory bias for interpersonal partner traits**
  Kristen Howard, MA, The Ohio State University
- **The role of emotion regulation in the relationship between BPD and impulsivity**
  Elinor Waite, BA, University of Massachusetts Amherst
• Screening for borderline personality pathology on college campuses
  Kiana Wall, MA, University of Houston

• Do borderline personality disorder features predict emotion regulation use and outcomes in daily life? An ecological momentary assessment study
  Kayla Scamaldo, MA, University of Toledo

• Effects of Childhood Sexual Abuse on Perception of Stress in Borderline Personality Disorder
  Cheyenne K. Horner, Cleveland State University

• Normal and Abnormal Personality Correlates of Distress Tolerance
  Maria Martin, Fordham University

16:15-17:35 Parallel Sessions
Momentary Interpersonal Processes of Antagonism and Related Personality Disorders
Chair: Elizabeth Edershile, MS, University of Pittsburgh
Discussant: Aaron Pincus, The Pennsylvania State University

• Contextual triggers within narcissism: A momentary approach
  Elizabeth Edershile, MS, University of Pittsburgh

• Antagonism in daily life
  Colin Vize, MS, Purdue University

• Attachment and borderline personality disorder: Differential effects on daily socio-affective processes
  Aleksandra Kaurin, PhD, University of Pittsburgh

• The affiliative role of empathy in everyday interactions
  Whitney Ringwald, MSW, MS, University of Pittsburgh

Individual Paper Presentations (Antisocial Personality Disorder/Psychopathy, Impulsivity, and Borderline Personality Disorder)

• Examining the structure of the triarchic psychopathy measure: Sharpening assessment of psychopathy constructs
  Kasey Stanton, PhD, Virginia Tech

• Personalized models of psychopathology as contextualized dynamic processes: An example from individuals with borderline personality disorder
  William Woods, MS, University of Pittsburgh

• Momentary Dynamics of Emotion-Based Impulsivity: Exploring Associations with Dispositional Measures of Externalizing and Internalizing Psychopathology
  Brinkley Sharpe, BA, University of Georgia

• Identifying both diagnosed and potentially undiagnosed patients with borderline personality disorder from a large electronic health record database
  Marianne Goodman, MD, James J Peters VAMC

A Q&A Panel on Grant Writing for Young Researchers: NIH, NSF, and Beyond
Chair: Benjamin Johnson, MS, The Pennsylvania State University
Discussants: Kenneth Levy, PhD, The Pennsylvania State University; Carla Sharp, PhD, University of Houston
Panel members: Lori Scott, PhD, University of Pittsburgh; Aliona Types, Ph.D., The University of Pittsburgh; Salome Vanwoerden, Ph.D., University of Pittsburgh

17:35 Adjournment
Saturday, April 17, 2021

08:00-08:30 Sign in to Zoom
08:30-09:15 Plenary Session - Access to Psychotherapy for Patients with Personality Disorders
   Joel Paris, MD, McGill University
09:15-09:30 Break
09:30-10:50 Parallel Sessions
   15 Minute Pitches on the Meaning of Criterion A
   Chair: Carla Sharp, PhD, University of Houston
   Discussant: Lee Anna Clark, PhD, University of Notre Dame
   - Criterion A viewed through a developmental lens
     Carla Sharp, PhD, University of Houston
   - Importance of self and other in defining personality pathology
     Aaron Pincus, PhD, The Pennsylvania State University
   - Criterion A and the Five Factor Model
     Thomas Widiger, PhD, University of Kentucky
   - An object relations perspective on the DSM-5’s alternative model for personality disorders
     Kenneth Levy, PhD, The Pennsylvania State University

Social Influences on Emotional, Cognitive, and Behavioral Responding in Borderline Personality Disorder and Related Pathology
   Chair: Kim Gratz, PhD, University of Toledo
   - Impact of in-vivo and future social rejection on self-esteem in borderline personality pathology
     Julia Richmond, MA, University of Toledo
   - The influence of social rejection on responses to an analogue addictive behaviors paradigm among young adults with BPD pathology
     Kim Gratz, PhD, University of Toledo
   - The relevance of perceived social and emotional scarcity to emotional responding in the laboratory among adults with borderline personality pathology
     Keith Edmonds, MA, University of Toledo
   - Learning in BPD: The influence of social stimuli and emotional state
     Katherine Dixon-Gordon, PhD, University of Massachusetts Amherst

Dynamic Risk Factors for Suicidal Thoughts and Behaviors in Youth and Young Adults
   Chair: Lori Scott, PhD, University of Pittsburgh
   Discussant: Lori Scott, PhD, University of Pittsburgh
   - Last night’s sleep predicts today’s suicidal ideation among high-risk depressed adolescents and college students: Preliminary results from a longitudinal multi-method investigation of the sleep-suicide association
     Peter Franzen, PhD, University of Pittsburgh
   - The daily emotions and relationships (DEAR) study: An intensive longitudinal study of dynamic suicide risk processes in young adults
     Lori Scott, PhD, University of Pittsburgh
   - Examining theory-based risk factors for suicide: What can we learn from an ideographic approach?
     Sarah Brown, PhD, University of Pittsburgh
   - Am I really here? Dissociation in daily life and adolescent suicide risk
     Vera Vine, PhD, University of Pittsburgh
10:50-11:50 Parallel Sessions
Moderators of the Relationship between Personality, Personality Disorders, and Self-Injurious Thoughts and Behaviors
Chair: Matthew Tull, PhD, University of Toledo

- Perceived efficacy for emotion regulation: Examining general and comparative emotion regulation self-efficacy in borderline personality disorder and nonsuicidal self-injury
  Tara Spitzen, MA, University of Toledo
- Suicide risk among individuals with BPD features and reduced pain sensitivity
  Lauren Haliczer, MA, University of Massachusetts Amherst
- The role of dispositional capability for suicide in suicidal ideation and attempts among patients with borderline personality disorder: Examination of the COMT Val158Met polymorphism
  Matthew Tull, PhD, University of Toledo

Individual Paper Presentations (Borderline Personality Disorder: Etiology, Differential Diagnosis and Treatment)

- How participants with borderline personality disorder experience a 22-week Dialectical Behavioral Therapy group in a non-traditional therapeutic setting
  Aaron Shalan-Webb, MS, The Priory Hospital Roehampton London/Body & Soul Non-Traditional Therapeutic Setting
- Bipolar and borderline personality disorder comorbidity: Differential diagnosis and implications for treatment
  Nina Hotkowski, MSW, Western Psychiatric Hospital
- Narrative Identity and Personality Disorder: an Empirical and Conceptual Review
  Majse Lind, PhD, University of Florida

11:50-12:50 Lunch

12:50-13:35 Plenary Session – Scientific Updates on Non-Suicidal Self-Injury
Jill M. Hooley, D.Phil, Harvard University

13:35-14:55 Parallel Sessions
Current Research on the Neurobiology of Borderline Personality Disorder

- Amygdala resting state functional connectivity in bipolar II and borderline personality disorders
  D. Bradford Reich, MD, Harvard Medical School
- Cumulative life stress and hippocampal activation during recognition memory in major depressive disorder and borderline personality disorder
  Anthony C. Ruocco, PhD, University of Toronto
• Embodiment and borderline personality disorder
  Royce Lee, MD, The University of Chicago

• Distinct neural correlates of provoked aggressive behavior in borderline personality disorder
  Jennifer Fanning, PhD, McLean Hospital

Individual Paper Presentations (Personality Psychopathology, Self-harm, and Aggression)

• Pathological personality, relationship satisfaction, and intimate partner aggression: Analyses using the dsm-5 alternative model of personality disorder traits
  Madison Smith, MS, Purdue University

• Personality disorders and intimate partner aggression: A replication and extension in older, married couples
  Susan South, PhD, Purdue University

• Investigating translocator protein binding in borderline personality disorder with serious self-harm behavior: an [18F]-FEPPA positron emission tomography study
  Nathan Kolla, MD, PhD, Centre for Addiction and Mental Health

• Exploring the roots of aggression: The hierarchical structure of antagonism across personality disorders
  William Calabrese, PhD, Stony Brook University

Narcissistic Personality Disorder: Recent Developments in Studies and Treatment
Chair: Ela Ronningstam, PhD, Harvard Medical School/McLean Hospital
Discussant: Glen Gabbard, MD, Baylor College of Medicine

• Facilitators and obstacles for change in pathological narcissism and narcissistic personality disorder
  Elsa Ronningstam, PhD, Harvard Medical School/McLean Hospital

• Are all individuals with pathological narcissism or narcissistic personality disorder really vulnerable deep down inside? And do they need positive affirmations?
  Michal Weiss, PhD, The Hebrew University of Jerusalem

• Transference and countertransference in dynamic psychotherapy with patients with pathological narcissism
  Holly Crisp Han, MD, Baylor College of Medicine

• Modification of treatment principles for various types of Narcissistic Personality Disorder patients
  Igor Weinberg, PhD, Harvard Medical School/McLean Hospital

14:55-15:10 Break

15:10-16:05 Poster Sessions: Posters 1-9
  Session Moderator: Dr. Stephanie Stepp
  Poster Sessions: Posters 10-17
  Session Moderator: Dr. Carla Sharp

16:05-16:50 Awards Ceremony

16:50-17:05 Closing Remarks
  Stephanie Stepp, PhD, NASSPD President, University of Pittsburgh

17:05 Adjournment
Posters

1. Characterizing interpersonal emotion regulation in relation to borderline personality disorder features
   Kristen Howard, MA, The Ohio State University
2. Parental Criterion A function and adolescent borderline personality pathology
   Sophie Kerr, BA, University of Houston
3. Meta-analysis of internet-based interventions for perfectionism
   Evan Illiakis, BA, University of Pennsylvania
4. Self-Reported Attachment, Computerized Reflective Functioning, and Borderline Personality Disorder: A Study Assessing the Role of Social and Neuro-Cognition
   Gabrielle Ilagan, BA, McLean Hospital
5. The "dark side" of success: An analysis of the role of charisma in predicting the relation between psychopathy and success
   Emma-Clementine Welsh, MS, The State University of New York at Binghamton
6. Associations between Eating Pathology and Personality Pathology in a Newlywed Sample
   Samantha Dashineau, MS, Purdue University
7. Self-injurious thoughts and behaviors among non-heterosexual young women
   Qi Chen, University of Pittsburgh
8. Examining the role of race and socioeconomic status on the relationship between potentially traumatic events and BPD features in college students
   Nikita Parulkar, BS, University of Massachusetts Amherst
9. Prospective associations between borderline and antisocial personality disorder symptoms and aggressive behavior: Mediating roles of emotion dysregulation and impulsivity
   Zachary J. Nitsch, University of Pittsburgh
10. Risk for emotion dysregulation in preschool children and associations with internalizing and externalizing psychopathology
    Olivia Frigoletto, BS, University of Pittsburgh
11. The Inventory of Personality Organization: Measurement invariance across race and ethnicity
    Jessica Hernandez Ortiz, BS, University of Houston
12. Interpersonal theory and instability in borderline personality disorder
    Alison Smith, University of Pittsburgh
13. Shame and Borderline Personality Features in Inpatient Adolescents: The Moderating Role of Adverse Experiences
    Nabeeha Asim, University of Houston
14. White Matter Endpoint Metric of Diffusion Tensor Imaging in Borderline Personality Disorder
    Daniel Lo, University of Pittsburgh
15. Impacts of Early-Life Traumas on Conduct Disorder and Anti-Social Personality Disorder
    Julia Zagaroli, Massachusetts General Hospital
    Emily Mitchell, James J. Peters Veterans Affairs Medical Center
17. Maladaptive emotion regulation mediates the relationship between sympathetic reactivity and self-harm tendencies within a borderline personality disorder context
    Cheyene Horner, BA, Cleveland State University
Course Director
Stephanie D. Stepp, PhD
President, NASSPD
Associate Professor of Psychiatry and Psychology
Principal Investigator, STEADY Study and Mood-Y Study
University of Pittsburgh
Pittsburgh, PA

Faculty

Nabeeha Asim
Psychology Undergraduate
Department of Psychology
University of Houston, Class of 2021
Houston, TX, 77204

Marcelo Brañas, MD
Clinical Psychiatrist
University of São Paulo
Institute of Psychiatry
Butanta, São Paulo, Brazil

Sarah L. Brown, PhD
Postdoctoral Associate
Department of Psychiatry
University of Pittsburgh School of Medicine
Pittsburgh, PA

Amy L. Byrd, PhD
Assistant Professor
Department of Psychiatry
University of Pittsburgh School of Medicine

West Lafayette, Indiana

Susan C. South, PhD  
Associate Professor  
Department of Psychological Sciences  
Purdue University  
West Lafayette, Indiana

Matthew W. Southward, PhD  
Postdoctoral Scholar  
Department of Psychology  
University of Kentucky  
Lexington, KY

Tara L. Spitzen, MA  
Clinical Psychology Ph.D. candidate  
Department of Psychology  
Personality and Emotion Research and Treatment (PERT) Laboratory  
University of Toledo  
Toledo, OH

Kasey Stanton, PhD  
Assistant Professor  
Department of Psychology  
Virginia Tech  
Blacksburg, VA

Christina Temes, PhD  
Lecturer  
Department of Psychiatry  
Harvard Medical School  
Boston, MA

Julianne Wilner Tirpak, MA  
Doctoral Candidate in Clinical Psychology  
Transdiagnostic Treatment and Research Program  
Center for Anxiety and Related Disorders  
Boston University  
Boston, MA

Jenna M. Traynor, PhD, Cpsych  
Postdoctoral Fellow  
Department of Psychology  
University of Toronto Scarborough  
Centre for Addiction and Mental Health  
Toronto, Ontario, Canada

Aliona Tsypes, PhD  
Postdoctoral Scholar  
Department of Psychiatry  
University of Pittsburgh  
Pittsburgh, PA

Matthew T. Tull, PhD  
Professor of Psychology  
Department of Psychology  
University of Toledo  
Toledo, OH

Paula Tusiani-Eng, LMSW, MDiv  
President/Executive Director  
Emotions Matter Inc.  
Garden City, NY

Salome Vanwoerden, PhD  
Postdoctoral Fellow  
Department of Psychiatry  
University of Pittsburgh  
Pittsburgh, PA

Vera Vine, PhD  
Postdoctoral Associate  
University of Pittsburgh School of Medicine  
Western Psychiatric Hospital  
Pittsburgh, PA

Colin E. Vize, MA  
Graduate Student  
Department of Psychological Sciences  
Purdue University  
Western Psychiatric Institute and Clinic  
West Lafayette, IN & Pittsburgh, PA

Elinor Waite, B.A  
Graduate Student  
Clinical Psychology  
UMass Amherst  
Amherst, Massachusetts

Kiana Wall, MA  
NIMH Predoctoral Fellow  
Clinical Psychology Doctoral Student  
Developmental Psychopathology Lab  
Department of Psychology  
University of Houston
Igor Weinberg PhD
Assistant Professor
McLean Hospital
Harvard Medical School
Belmont, MA & Boston, MA

Michal Weiss, PhD
Clinical Psychologist
The Hebrew University of Jerusalem
Jerusalem, Israel

Emma-Clementine O. Welsh, MS
Doctoral Student
Laboratory of Experimental Psychopathology
Clinical Science Program
Department of Psychology
Binghamton University (SUNY)
Binghamton, NY

Thomas Widiger, PhD
Professor of Psychology
Department of Psychology
University of Kentucky
Lexington, KY

William C. Woods, MS
Graduate Student
Department of Psychology
University of Pittsburgh
Pittsburgh, PA

Aidan G.C. Wright, PhD
Associate Professor
Department of Psychology
University of Pittsburgh
Pittsburgh, PA

Julia Zagaroli, BA
Clinical Research Coordinator I
AA Martinos Center for Biomedical Imaging
Massachusetts General Hospital
Charlestown, MA

Mary C. Zanarini, EdD
Professor of Psychology
Harvard Medical School
Director for Laboratory for the Study of Adult Development
McLean Hospital
Boston, MA & Belmont, MA

For additional information on presenters or presentations, please contact Doreen Barkowitz at barkowitzdh@upmc.edu.
Faculty Disclosure

All individuals in a position to control the content of this education activity including members of the planning committee, speakers, presenters, authors, and/or content reviewers have disclosed all relevant financial relationships with any entity producing, marketing, re-selling, or distributing health care goods or services, used on, or consumed by, patients.

The following relevant financial relationships were disclosed:

- Lee Ana Clark, FRS – Other: Use of intellectual property: Opiant Pharmaceuticals
- Marianne Goodman – Consultant: Boehringer
  Consultant: Ingelheim
- Julia Zagaroli – Stockholder: Pfizer
  Stockholder: Ultragenyx

No other planners, members of the planning committee, speakers, presenters, authors, content reviewers and/or anyone else in a position to control the content of this education activity have relevant financial relationships to disclose.

The information presented at this CME program represents the views and opinions of the individual presenters, and does not constitute the opinion or endorsement of, or promotion by, the UPMC Center for Continuing Education in the Health Sciences, UPMC / University of Pittsburgh Medical Center or Affiliates and University of Pittsburgh School of Medicine. Reasonable efforts have been taken intending for educational subject matter to be presented in a balanced, unbiased fashion and in compliance with regulatory requirements. However, each program attendee must always use his/her own personal and professional judgment when considering further application of this information, particularly as it may relate to patient diagnostic or treatment decisions including, without limitation, FDA-approved uses and any off-label uses.
Continuing Education Credit – NASSPD 2021 Annual Conference – April 16, 2021

Physicians
In support of improving patient care, the University of Pittsburgh is jointly accredited by the Accreditation Council for Continuing Medical Education (ACCME) and the Accreditation Council for Pharmacy Education (ACPE), and the American Nurses Credentialing Center (ANCC), to provide continuing education for the healthcare team.

The University of Pittsburgh School of Medicine designates this live activity for a maximum of 6.5 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Other health care professionals will receive a certificate of attendance confirming the number of contact hours commensurate with the extent of participation in this activity.
Psychologists

As a Jointly Accredited Organization, University of Pittsburgh is approved to offer psychology continuing education by the American Psychological Association. University of Pittsburgh maintains responsibility for this course. Psychologists completing this course receive 4.5 continuing education credits.

Certified Alcohol and Drug Counselors/Certified Co-Occurring Disorders Professionals: CADC/CCDP

The Office of Educational Resources and Planning, UPMC Western Psychiatric Hospital is certified by the Pennsylvania Certification Board (PCB) to provide Certified Alcohol and Drug Counselor (CADC) and Certified Co-occurring Disorders Professional (CCDP) continuing education credits. This program is being offered for a maximum of 4.5 continuing education credits.

Counselors

UPMC Western Psychiatric Hospital has been approved by NBCC as an Approved Continuing Education Provider, ACEP No. 5059. Programs that do not qualify for NBCC credit are clearly identified. UPMC Western Psychiatric Hospital is solely responsible for all aspects of this program. This program is being offered for a maximum of 4.5 continuing education hours.

Licensed/Clinical Social Workers, Licensed Professional Counselors, Licensed Marriage and Family Therapists: LSW/LCSW/LPC/LMFT

As a Jointly Accredited Organization, University of Pittsburgh is approved to offer social work continuing education by the Association of Social Work Boards (ASWB) Approved Continuing Education (ACE) program. Organizations, not individual courses, are approved under this program. State and provincial regulatory boards have the final authority to determine whether an individual course may be accepted for continuing education credit. University of Pittsburgh maintains responsibility for this course. Social workers completing this course receive 4.5 continuing education credits.

Other Healthcare Professionals

Nurses and other health care professionals are awarded a maximum of .450 Continuing Education Units (CEU's). One CEU is equal to 10 contact hours. Nurses: For attending this program you will receive a Certificate of Attendance confirming a maximum of 4.5 hours of continuing education. These hours may be considered eligible for completing the 30 hours of continuing education required for biannual nursing re-licensure in Pennsylvania.

We encourage participation by all individuals. If you have a disability or require special accommodations, advance notification of any special needs will help us better serve you. Please notify us of your needs at least two weeks in advance of the program by calling Nancy Mundy at mundnl@upmc.edu.
Continuing Education Credit – NASSPD 2021 Annual Conference – April 17, 2021

Obtaining Continuing Education (CE) and Continuing Medical Education (CME) Credits

BY APRIL 15, 2021, please do the following to obtain Continuing Education (CE) or Continuing Medical Education (CME) credits. You will not be able to sign up once the conference day has ended:

Although you have registered for this event at www.NASSPD.org, you still need to register for continuing education credits at The North American Society for the Study of Personality Disorders (NASSPD)-Day One | UPMC - Center for Continuing Education in the Health Sciences for April 16, 2021; and

The North American Society for the Study of Personality Disorders (NASSPD)-Day Two | UPMC - Center for Continuing Education in the Health Sciences for April 17, 2021 to access the evaluation and if you require, CE and CME credits. You may need to create an account first, and then register.

After the program, you will return to the link above and follow these directions:

1. Log in
2. Go to “My Account”
3. Go to “My Courses”
4. Look under “Pending Courses” and click on the course for whatever day(s) you attended
5. Complete the evaluation (not required except for the questions about what CE credits you’re applying for) and follow the prompts. If you need a certificate other than APA or LSW/LCSW/LPC/LMFT, please answer those questions in the evaluation and the certificate will be e-mailed to you in four to six weeks.
6. If you’re unable to “see” your certificate, go back to “My Courses” and click on “Completed Activities”. The certificate will be available to download.
