

**Antepartum and Postpartum
Musculoskeletal Impairments:**
Diagnosis and Treatment

*Physician and Physical
Therapy Perspectives*

Free Live Virtual Webinar

September 10, 2021

Noon – 1 p.m.

OVERVIEW

This webinar provides information on the assessment and treatment of musculoskeletal impairments of the antepartum and postpartum patient population.

LEARNING OBJECTIVES

The goal of this webinar is to provide a comprehensive overview and enhance provider knowledge, drive improvement in patient quality-of-life outcomes, and increase awareness of services available to women by discussing:

- Physiologic changes impacting the musculoskeletal system during pregnancy
- Etiology and patient management of common musculoskeletal complaints in pregnancy, delivery, and postpartum
- Enhancing function and quality of life during the childbearing years

SCHEDULE

Noon
