

# *44<sup>th</sup> Annual Magee Alumni Day Program Schedule*

Friday, September 20, 2019  
UPMC, Magee-Womens Hospital  
Drs. Hutchinson and Hayashi Auditorium  
Pittsburgh, Pennsylvania

## **Overview**

For this year's Magee Alumni Day program, we have an exciting line-up of speakers consisting of past and current faculty and former residents. The program will feature updates on clinical care over the entire age spectrum of our patients. We expect the program to present topics that pose challenging clinical, technical, ethical and financial issues that today's OB/GYN often faces, whether in practice or in an academic career. The program features endowed lectures – the Cohen, McCall, OB/GYN Legacy, Katz Minimally Invasive Surgery and the Alan Kunschner Memorial lectures.

## **Objectives**

- Improved understanding of the risk and benefits of MIS surgery as well as mesh placement for POP.
- Increased knowledge of new techniques for cryopreservation of ovarian tissue and re-implantation.
- Better understanding of the impact of ZIKA virus and its impact on the developing fetus.
- Understand modern women's cancer screening and prevention science.

## **Target Audience**

This Program is focused on healthcare practitioners in obstetrics and gynecology as well as other primary care specialties

7:00 AM                    **Registration**

7:30 AM                    **Welcome - Richard Guido, MD**

7:40 AM                    **Drs. Mortimer and Harold Cohen Lecture**  
  
**Cryopreservation and Transplantation of ovary Tissue and Ovarian Longevity**  
  
*Sherman J. Silber, MD*

8:20 AM                    **OB/GYN Legacy Lecture**  
  
**Revolution and Evolution: Gynecology Oncology and Magee-Womens Hospital**
