# Save the Date: September 11-12, 2020 APP Academy

This two-day course is specially designed for current practicing advanced practice providers (APPs) looking to build procedural skills and APP students interested in surgical specialties. Program includes:

- Interactive didactic sessions featuring both APPs and physician faculty
- Full day of hands-on training in cardiothoracic surgical techniques and bedside procedure skills
- Fundamentals of robotic thoracic surgery
- Overview of endoscopic vein harvesting
- Essentials of bronchoscopy
- Introduction to ECMO cannulation and management
- Live hands-on ultrasound training
