

2019

BUSINESS MEETING

CAPER 2018-2019 Highlights

- Trainee Committee
- Pancreas Scholars
- 3rd Annual CAPER Pancreas Academy
- Continued partnership with PACE Communications

FINANCIAL UPDATE & VOTING

2019

Travel Scholarships

Financial Support

CAPER would like to thank the following organizations and contributors for their financial support of the 2019 CAPER Travel Scholarships:

AbbVie, Inc.

Dr. Edward D. Purich, ChiRhoClin, Inc.

Adeyinka Adejumo, MD, MS
North Shore Medical Center

National estimates of the trends
and outcomes of Protein-Energy
Malnutrition among patients with
chronic pancreatitis.

Amir Gougol, MD
University of Pittsburgh

Multi-Organ Failure is the Strongest
Determinant of Poor Clinical
Outcomes in Acute Pancreatitis.
(APPRENTICE Study Group)

Anna Phillips, MD, MS
University of Pittsburgh

Persistent SIRS and NonAlcohol
Etiology of AP are associated with
Oral Feeding Intolerance in AP:
Results From an International,
Multicenter, Prospective Cohort
Study.

Venkata Sandeep Akshintala, MD
Johns Hopkins Hospital

Cystic fibrosis transmembrane
conductance regulator modulators
reduce the risk of recurrent acute
pancreatitis among adult patients with
pancreas sufficient cystic fibrosis

Naylor Brownell, MD

Fellow Physician, Pediatric Gastroenterology
and Nutrition

Children's Hospital of Philadelphia

**Exocrine Pancreatic Function, Genetic
Variants, and Risk Factors in a Cohort
of Subjects with Chronic Pancreatitis**

Peter Farrell, MD, MS

Clinical Fellow, Division of Gastroenterology,
Hepatology, and Nutrition

Cincinnati Children's Hospital Medical
Center

**Validation and Optimization of an
Early Predictor Model for Pediatric
Acute Pancreatitis**

Pedram Paragomi, MD
University of Pittsburgh

Dynamic analysis of patients with acute pancreatitis: validation of a new predictive tool for severity assessment in a large prospective cohort.

Santiago Manrique-Bedoya,
MD

Clinical Fellow, Division of
Gastroenterology,
Hepatology, and Nutrition

University of Texas at San
Antonio

Computational modeling of
plasmonic photothermal therapy
in pancreatic tissue: A precursor to
nanoparticle-mediated pancreatic
cancer treatment.

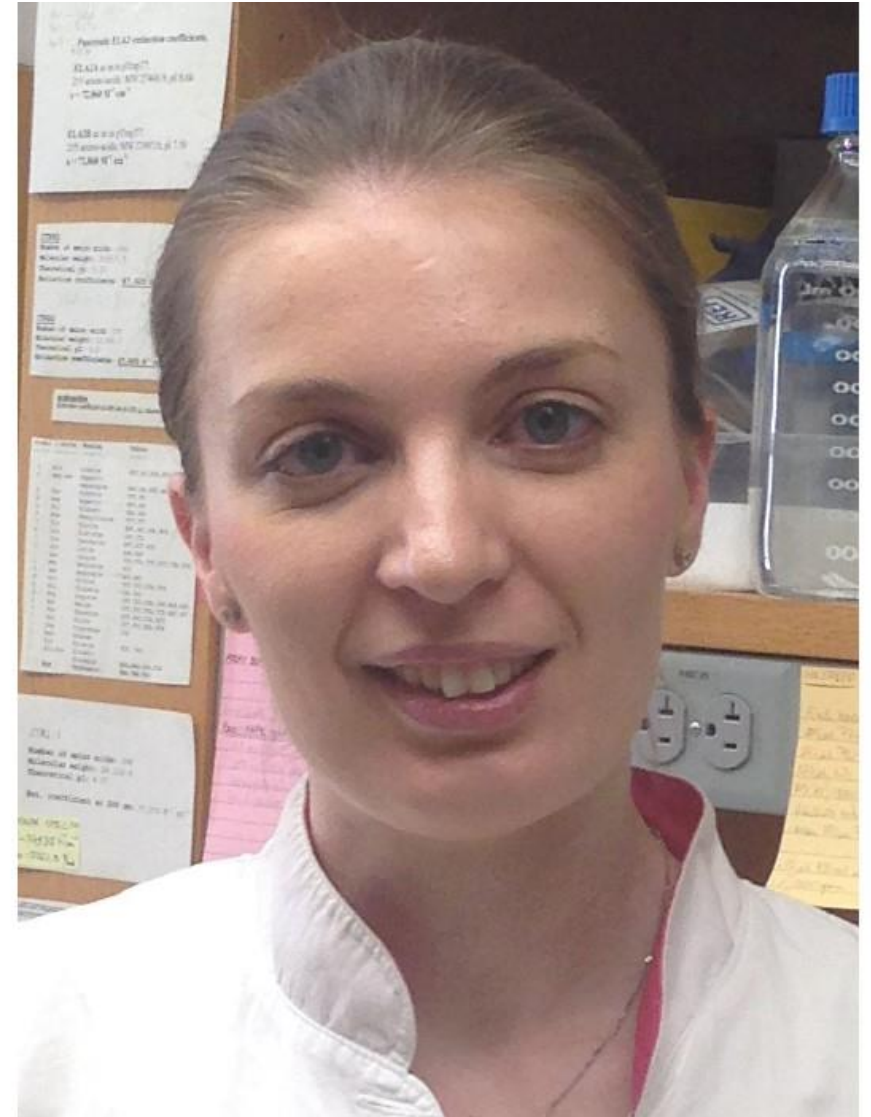

Balazs Nemeth, MD, PhD
University of Szeged, Hungary

Mutations in the 5' upstream
region of Chymotrypsinogen C
gene are not associated with
chronic pancreatitis.

Eszter Hegyi, MD, PhD
University of Pecs, Hungary

Assessing the clinical significance
of PRSS1 intronic variants.

Lan Li, MD

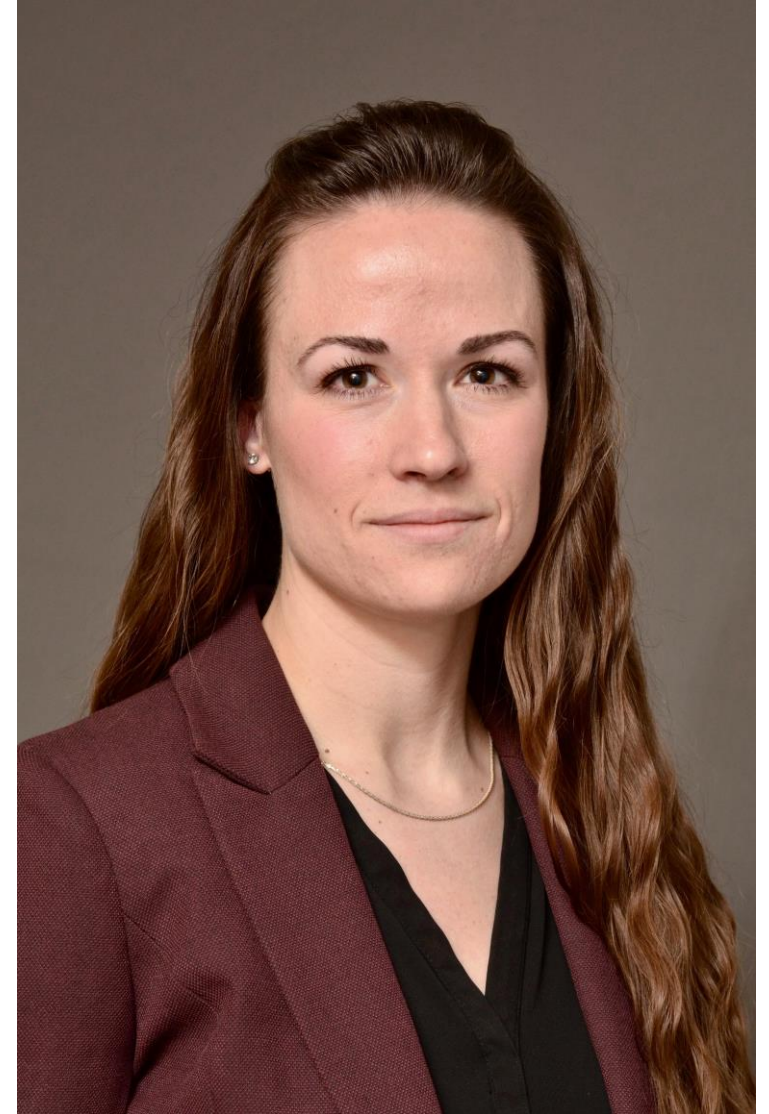

University of West China
Hospital, China

Early Rapid Fluid Therapy is
Associated with Increased Risk of
Persistent Organ Failure in Acute
Pancreatitis Patients with
Hemoconcentration after Initial
Management.

Kendall McEachron, MD
T32 Research Fellow
University of Minnesota

Changes in inflammatory cytokine levels in the acute and subacute phases of islet engraftment after total pancreatectomy and islet autotransplantation (TPIAT).

Aslam Syed, MD

Gastroenterology Fellow
Allegheny Health Network

Chronic pancreatitis is associated with increased cardiovascular mortality: a population-based analysis.

Ayesha Kamal, MD
John Hopkins University

Development, validation of a Post-ERCP pancreatitis risk calculator and machine learning based decision making tool for prophylaxis selection.

Francisco Valverde-Lopez,
MD, PhD
La Merced Hospital, Spain

Clinical and endosonographic
factors related to recurrence in
idiopathic acute pancreatitis.

Kishore Vipperla, MD,
University of Pittsburgh

Pain “Burn-out” During the Natural
Course is Independent of the
Duration of Chronic Pancreatitis
(CP).

Mahya Faghih, MD, Post Doc
John Hopkins University

Pain modulatory phenotypes
differentiate chronic pancreatitis
patients with distinct clinical pain
profiles.

Nikhil Thiruvengadam, MD
Clinical Fellow
University of California San
Francisco

Tacrolimus and Indomethacin are
Safe and Effective at Reducing
Post-ERCP Pancreatitis in
Orthotopic Liver Transplant
Patients Undergoing ERCP.

Laurel Branch, MD
Internal Medicine Fellow
The Medical University of
South Carolina

Diagnostic Imaging in Pancreatic
Ductal Adenocarcinoma.

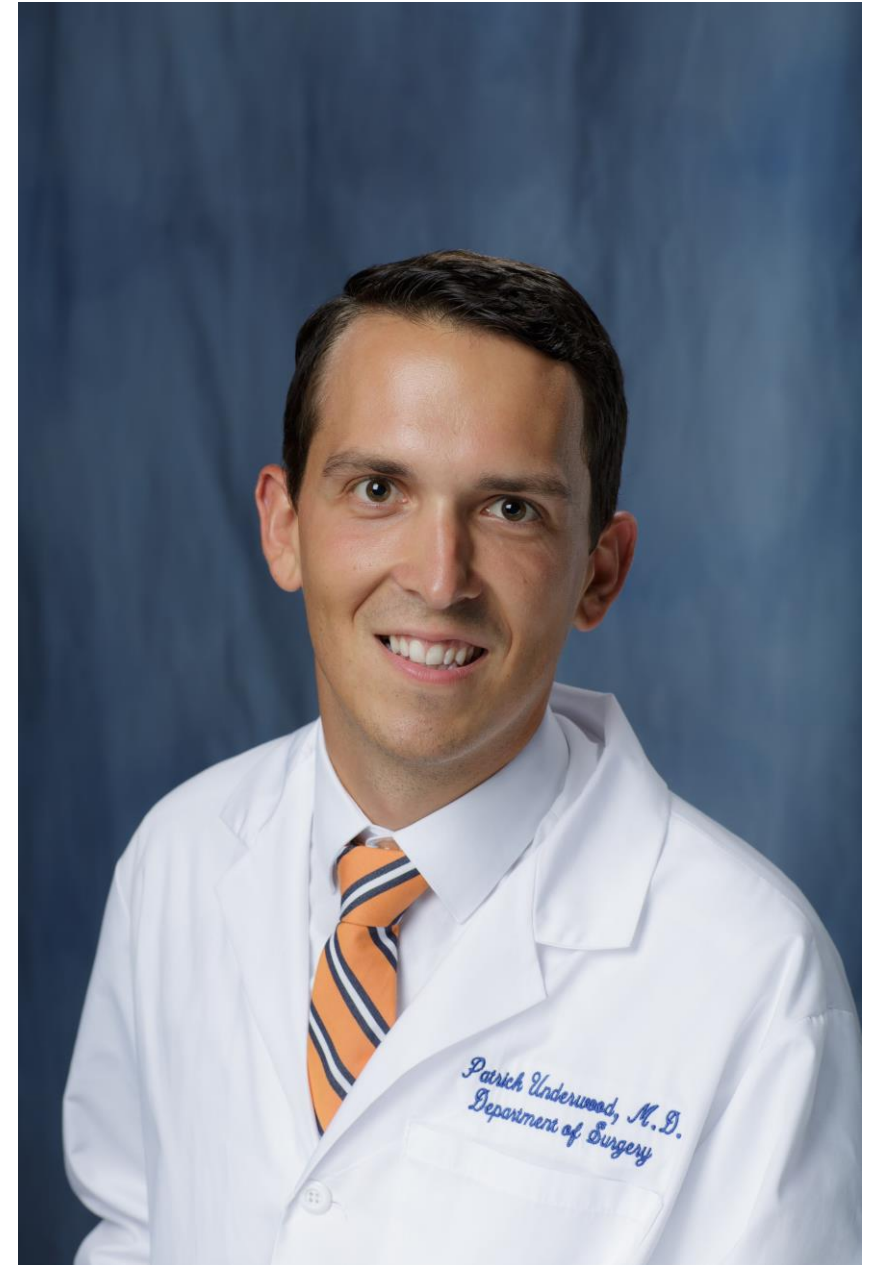

John George, MD
Yale New Haven Health

Incidence of pancreatitis with the use of immune checkpoint inhibitors (ICI) in advanced cancers: A systematic review and meta-analysis.

Patrick Underwood, MD
University of Florida

Feasibility and performance of a
protein signature assay in EUS-FNA
of suspected pancreatic
adenocarcinoma.

2018/ 2019 Scholars

Ajay Singhvi, MD

University of Pittsburgh Medical Center

Coexistence of Alcoholic Liver Disease and Alcoholic Pancreatitis.

Christopher Fan, MD
John Hopkins Hospital

Gut Microbiome Interactions in Acute Pancreatitis and Carcinogenesis.

Manav Sharma, MBBS

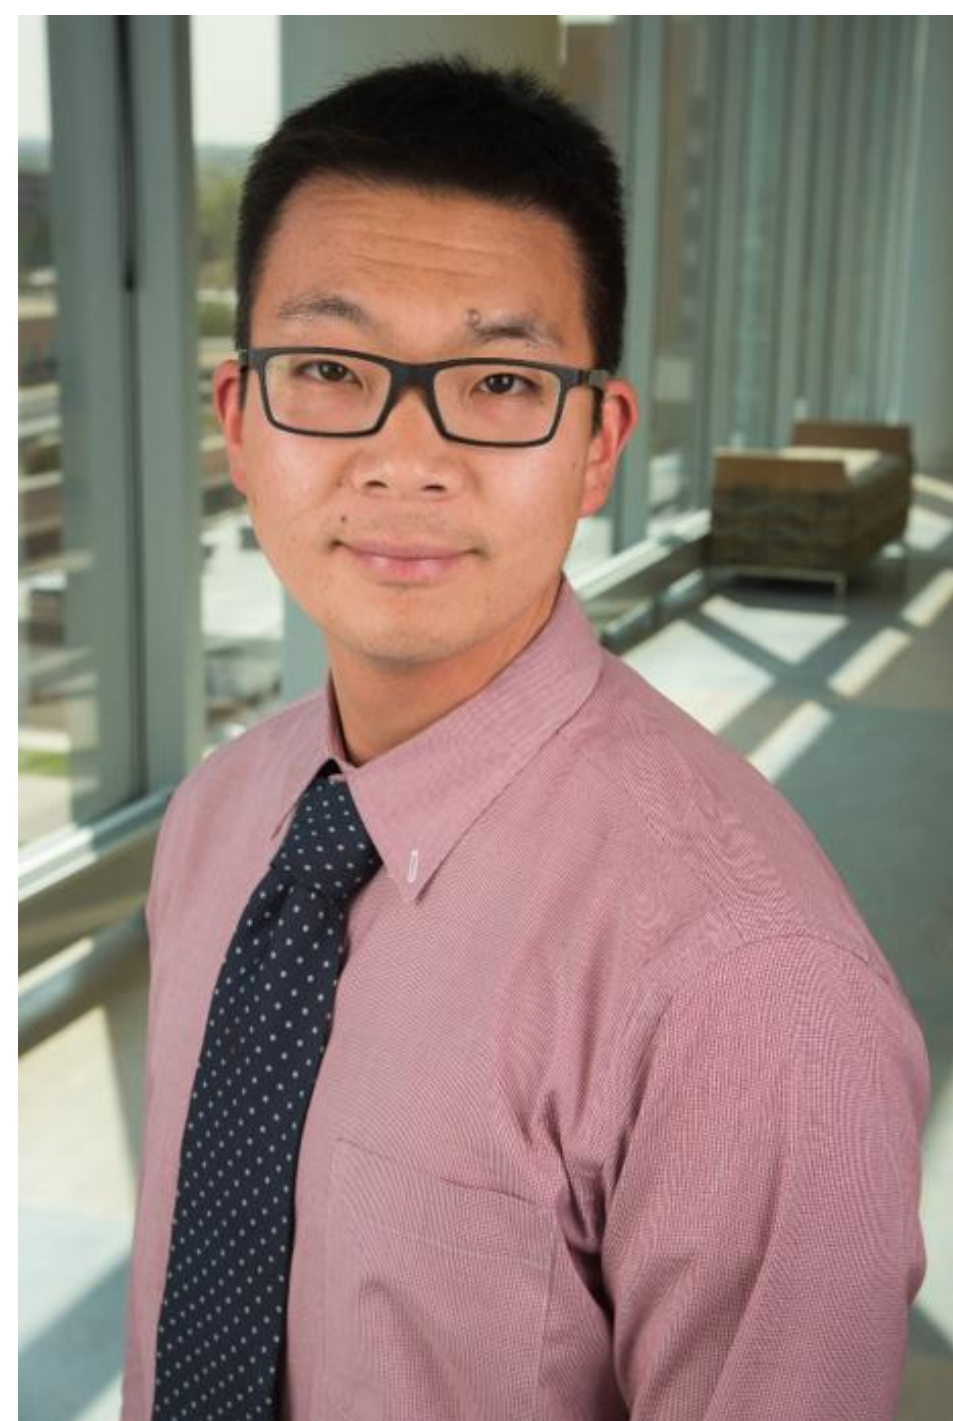

Allegheny Health Network, Pittsburgh, PA

Neoadjuvant Chemotherapy for Resectable Pancreatic Cancer: Where We Stand.

Samuel Han, MD
University of Colorado

The Effect of Pancreatic Endotherapy on Quality of Life in Patients with Chronic Pancreatitis.

Yoyo Zhang, MD

Stanford University

Duodenal Inflammation and Mucosal Integrity in Chronic Pancreatitis.

Addison Cueno, MD

University of California, San Francisco

Medical Traumatic Stress in Pediatric Chronic Pancreatitis: Initial Findings.

2019

LIFETIME ACHIEVEMENT AWARD

Randall E. Brand, MD
University of Pittsburgh Medical Center

In Recognition of Your Outstanding
Achievements and Contributions

Past, Present and Future of CAPER
