PancreasFest 2019

Introduction

The primary purpose of PancreasFest is to bring physicians and investigators together to discuss well-designed multi-center studies to advance our understanding of the origin and progression of pancreatic diseases and to provide optimal treatments to patients as soon as possible. PancreasFest emerged from the annual meeting of the Midwest Multicenter Pancreatic Study Group and the annual investigators meeting of the North American Pancreatic Study Group. This meeting is led by academic physicians who are committed to collaboration to support patients who desperately need answers.

PancreasFest 2019 acknowledges generous support from the following:

- **CAPER** for trainee and junior investigator travel scholarships and Thursday lunch sponsorship.
- **National Pancreas Foundation** for Thursday poster reception sponsorship.
- **NIH / NIDDK** for PF19 support and for choosing Pittsburgh as a meeting site for its July 24th NIDDK Pancreas Workshop.
- Our **industry partners** through generous educational grants and exhibitor support. Please visit the PF19 exhibitors in the Kurtzman Room.

Thank you for attending. Be sure to visit <www.pancreasfest.org> for updates throughout the coming year.

In good health,
