Introduction

The fastest growing segment of the population comprises individuals over age 85. The purpose of our annual conference is to provide an evidence-based approach to help clinicians take exceptional care of these often complex and frail individuals.

This year, we are excited to bring you the 30th Clinical Update in Geriatric Medicine in a virtual format. Our Course Directors and Conference Planning team have created a program that will deliver a practical as well as an evidence-based approach. This year's conference also includes Q&A sessions, vendor halls, and opportunities to engage in conversations with speakers, exhibitors, and fellow attendees.

Highlights

Speakers — Handpicked by a multidisciplinary provider committee of academics, clinicians, and payers. Selection was based on two criteria:

- **Expertise** — which in most cases is nationally-recognized and often responsible for advances relevant to practice
- **Ability to convey information**, in a practical, succinct, and entertaining way that will allow attendees to immediately incorporate lessons into their practice and feel inspired to advance the quality of care for their older adult patients.

Topics and Structure

- ▲ Pragmatic clinical pearls on challenges that primary care clinicians face daily in the care of older adults, including behavioral symptoms of dementia, dizziness, urinary tract infections, and polypharmacy
- ▲ New, proven strategies for aligning care with the specific priorities and goals of older adults coping with multiple health conditions -- delivered by the renowned expert who devised and tested them
- ▲ Exploration of aging's impact on cardiovascular function, dysfunction, and falls, delivered by the pioneer in the field.
- ▲ A Geriatric Cardiology Symposium featuring authors of AHA/ACC's national Guidelines for the Elderly
- ▲ Interactive expert Q/A sessions on: osteoporosis by the President of the National Osteoporosis Foundation; and urinary incontinence by the co-developer of the AHRQ, MDS, and WHO guidelines
- ▲ Guidance on real-world decision-making for management of chronic pain in older adults, presented by an innovative leader in Geriatric Pain Medicine
- ▲ Practical tips on Palliative Medicine by the co-developer of the widely acclaimed "VitalTalk" approach
- ▲ Update on management of acute and long-term effects of COVID-19 in older adults
- ▲ State of the art models focused on emergency department care through a geriatric lens
- ▲ Evidence-based solutions for multiple other relevant topics specific to the geriatric population, delivered by specialists in Infectious Diseases, Endocrinology, and Gastroenterology

Learning Objectives

At the end of this course, participants should be able to:

- ▲ Describe how to approach and prioritize the clinical care of a complex older adult with multiple chronic illnesses
- ▲ Provide evidence-based updates for common geriatric syndromes and disorders
- ▲ Explore multidisciplinary-based models and system changes needed to improve the quality of care of the older patient
- ▲ Have enhanced confidence in best practices and clinical decision-making for older adult patients
- ▲ Obtain answers to specific clinical questions from their own practice

Who Should Attend

This course is designed for family practitioners, internists, geriatricians, and other health care professionals who provide care to older adults. Previous attendees will also be interested because of the conference's continually changing topics, speakers, and approach.

Continuing Education Credit

In support of improving patient care, this activity has been planned and implemented by the University of Pittsburgh and the Pennsylvania Geriatrics Society – Western Division. The University of Pittsburgh is jointly accredited by the Accreditation Council for Continuing Medical Education (ACCME), the Accreditation Council for Pharmacy Education (ACPE), and the American Nurses Credentialing Center (ANCC), to provide continuing education for the health care team.

Physician (CME) – The University of Pittsburgh designates this live activity for a maximum of **16.0 AMA PRA Category 1 Credits™**. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Nursing (CNE) – The maximum number of hours awarded for this Continuing Nursing Education activity is **16.0** contact hours.

Pharmacy (CPE) – This knowledge-based activity provides **15.5** contact hours of continuing pharmacy education credit.

Physician Assistant (AAPA) – The University of Pittsburgh has been authorized by the American Academy of PAs (AAPA) to award AAPA Category 1 CME credit for activities planned in accordance with AAPA CME Criteria. This activity is designated for **16.0** AAPA Category 1 CME credits. PAs should only claim credit commensurate with the extent of their participation.

Social Work – As a Jointly Accredited Organization, University of Pittsburgh is approved to offer social work continuing education by the Association of Social Work Boards (ASWB) Approved Continuing Education (ACE) program. Organizations, not individual courses, are approved under this program. State and provincial regulatory boards have the final authority to determine whether an individual course may be accepted for continuing education credit. University of Pittsburgh maintains responsibility for this course. Social workers completing this course receive **16.0** continuing education credits.

Other Health Care Professionals – Other health care professionals will receive a certificate of attendance confirming the number of contact hours commensurate with the extent of participation in this activity.
