PancreasFest 2022

Pancreas 360°

Introduction

The primary purpose of PancreasFest is to bring physicians and investigators together to discuss well-designed, multi-center studies to advance our understanding of the origin and progression of pancreatic diseases. Ultimately, we strive to provide optimal treatments to patients as soon as possible. PancreasFest emerged from the annual meeting of the Midwest Multicenter Pancreatic Study Group and the annual investigators meeting of the North American Pancreatic Study Group. This meeting is led by academic physicians who are committed to collaboration to support patients who desperately need answers.

PancreasFest 2022 acknowledges generous support from the following:

- **CAPER (Collaborative Alliance)** for their commitment to trainees and junior investigators.
- **NPF (National Pancreas Foundation), Nationwide Children's,** and **NIH/NIDDK** for valued partnerships.
- Our **industry partners** through generous educational grants and exhibitor support.

Please visit our PF22 exhibitors!

Thank you for attending.
