INTRODUCTION

At the most basic level, this program is intended to help you improve your competence and confidence in recognizing and managing violence risk across a variety of clinical settings. Just as most agencies expend considerable resources to develop staff skills around suicide risk management, this training is intended to provide similar tools for violence risk management. Initially built to the needs of crisis work, the training has been adapted for use in other clinical settings.

TARGET AUDIENCE

Health providers in mental health, addictions, primary care and emergency medicine who are interested in effectively recognizing and managing people at risk of violence.

OVERALL GOALS OF THE “CHAMPIONS” TRAINING PROGRAM

- Impart a practical, memorable, and usable framework for recognizing and managing violence risk in clinical settings.
- Create training that engages and uses multiple learning styles for adult / professional learners.
- Provide a training experience that is interactive, timely, engaging and enjoyable.
- Use recovery and risk-mindful values in the training.
- Deliver content that is in full alignment with clinical best practices and institutional standards.
- Prepare clinicians for direct work and decision-making while emphasizing and supporting clear pathways for consultation.
- Support clinicians with the personal impact of working with people who may be violent or may be perceived as violent.
- Provide training and resources that are accessible to new hires and useful to seasoned professionals alike.

FORMAL LEARNING GOALS

At the completion of the program, participants should be able to:

1. Explain the sources and impact of the myth of the “dangerously mentally ill.”
2. Apply the risk factors of history and hostility in the clinical assessment of violence risk.
3. Develop a safety plan targeting dynamic risk factors for violence.
4. Explore reasons consumers may have for owning firearms and effectively discuss safer storage strategies with them.
5. Explain the impact of stress on clinical performance and identify basic strategies for improved self-care.

Course Director and Committee

Course Director

John "Jack" Rozel, MD, MSL

Medical Director, Resolve Crisis Network

UPMC Western Psychiatric Hospital

Assistant Professor of Psychiatry, University of Pittsburgh School of Medicine

Adjunct Faculty, University of Pittsburgh School of Law

Affiliate Faculty, University of Pittsburgh Center for Bioethics and Health Law

Pittsburgh, PA

Dr. Rozel has been working in emergency mental health for over 25 years and has been the medical director of the Resolve Crisis Network since 2010. He is the President-Elect of the American Association of Emergency Psychiatry, the leading national organization dedicated to the improvement of compassionate, evidence-based care for people with psychiatric emergencies. As the medical director of Resolve Crisis Network, he leads a team of 140 crisis professionals who deliver over 130,000 services every year to the residents of Allegheny County through phone, mobile, walk-in and overnight programs delivered through a person centered, recovery-oriented model. He is board certified in general, child and forensic psychiatry.

Dr. Rozel regularly provides clinical and didactic training to medical students, residents, and fellows at the University of Pittsburgh School of Medicine; mentors graduate students through the Center for Bioethics and Health Law; co-teaches the Mental Health Law course at the School of Law; and teaches regional law enforcement professionals through the Crisis Intervention Team training program. He speaks regularly at national meetings on the themes of emergency psychiatry, risk management, violence, and the interface of law and psychiatry. He is the creator of the Clinical Homicide and Aggression Management Practices for Inpatient, Outpatient and Nontraditional Settings (CHAMPIONS) training.

Dr. Rozel earned a bachelor's degree in Biomedical Ethics and his MD at Brown University. He received a Master of Studies in Law from the University of Pittsburgh. He completed his general psychiatry residency and child and forensic psychiatry fellowships at Western Psychiatric Institute and Clinic of UPMC. Dr. Rozel chairs the Legislative Affairs Subcommittee of the Mental Health and Justice Advisory Committee for the Pennsylvania Commission on Crime and Delinquency. In addition to being a Fellow of the American Psychiatric Association, he is an associate member of the Health Law Section of the American Bar Association and the Physicians' Section of the International Association of Chiefs of Police.

Dr. Rozel is the supervising psychiatrist at the Shuman Juvenile Detention Center in Allegheny County, a clinic operated through Resolve Crisis Network and Western Psychiatric Hospital. He has worked in a variety of correctional healthcare settings in Pennsylvania, New York, and Rhode Island with juveniles and adults including specialized programs for fire setters and sex offenders.
