Speakers Series*

Can Healthcare Learn at Scale? From Sepsis to AI: Promise and Pitfalls

Health systems are implementing new dynamic approaches to improving sepsis care. An overview of those formulas springboards to exploring and identifying opportunities to apply health care learning principles in this and other routine care. In an age of increasingly smart tech, understanding the role that artificial intelligence (AI) can play in enhancing health care learning can shape the future of approaches and health systems.

Vincent X. Liu, MD, MS

*Senior Research Scientist, Division of Research, Kaiser Permanente Northern California
Regional Director, Hospitals Advanced Analytics, The Permanente Medical Group
Intensivist, Critical Care, Kaiser Permanente Medical Center, Santa Clara, California*

Thursday, March 5 | 3 to 4:30 p.m.

In-person attendance is limited to the first 180 registrants.
