**Course title:**

HealthChoices PCMH Learning Network Quality Improvement for Blood Pressure Control and Asthma Medication Ratio

**Course date:**

Tuesday, February 18, 2025

**Will this activity help social workers better serve the public and support ongoing professional competence?**

Yes

**Can this activity be understood as building on a degree in social work for someone currently practicing as a licensed social worker?**

Yes

**Is the content of this activity credible (i.e., empirical, peer reviewed, follows established research procedures) OR does it address legal, ethical or regulatory professional standards?**

Yes

**Please provide learning objectives relevant to the scope of practice for social workers:**

1. Establish a shared understanding of the 2025 PCMH Sprint goals and framework for addressing blood pressure control and/or asthma medication ratio.
2. Define the key intervention each PCMH is implementing and next steps for making progress.
3. Identify the root cause(s) to address as part of each respective key intervention.
4. Describe practices that enhance the current approach to managing hypertension.

**Please select one or more of the following social work educational areas:**

Social work practice, knowledge, and skills

**Specific practice, knowledge, and skills (select one)**

Social work clinical practice
