Suggestions for improvement of this course.

All the staff made it enjoyable!
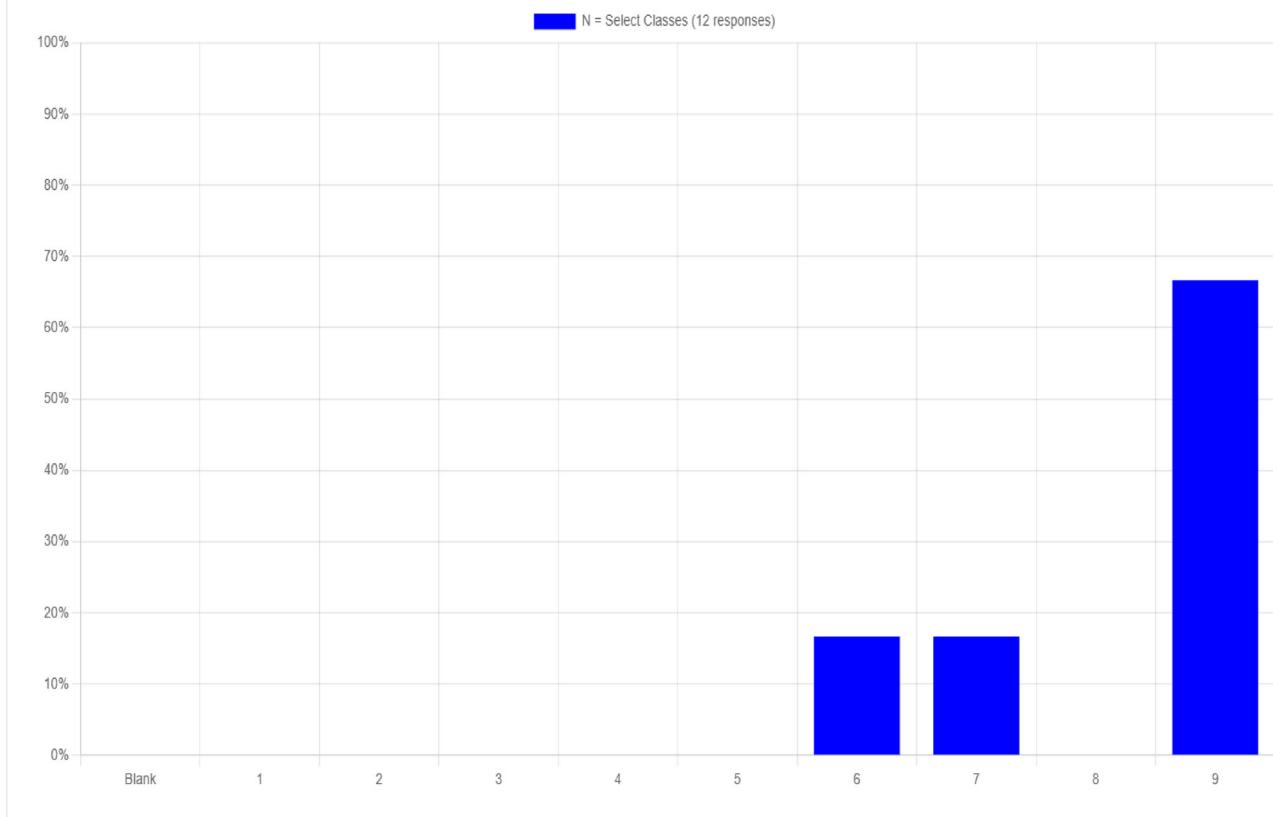

I think technologists would benefit more from a separate class that focuses more on what's in their scope of practice

Difficult to follow, outside of my practice for the most part. Interesting to hear about, though.
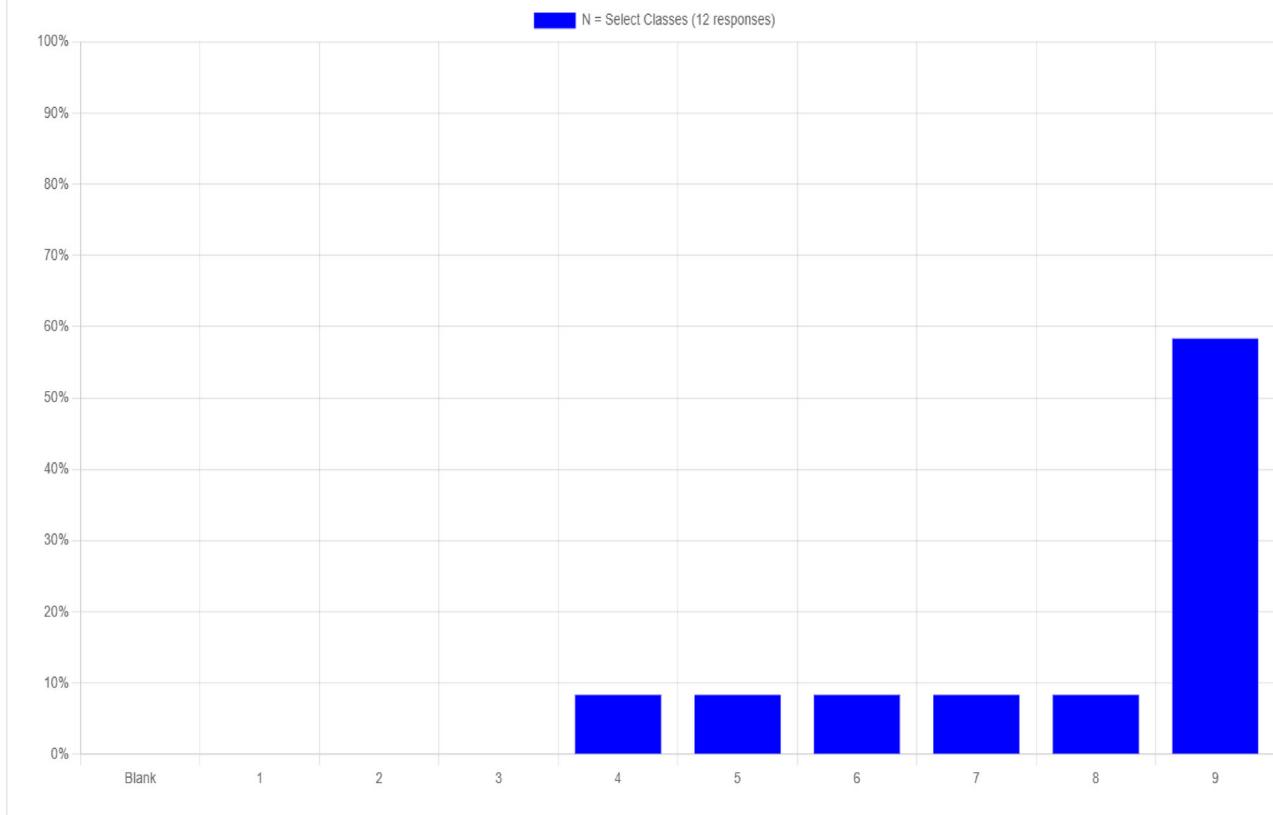

The simulation scenarios were realistic.

N = Select Classes (12 responses)
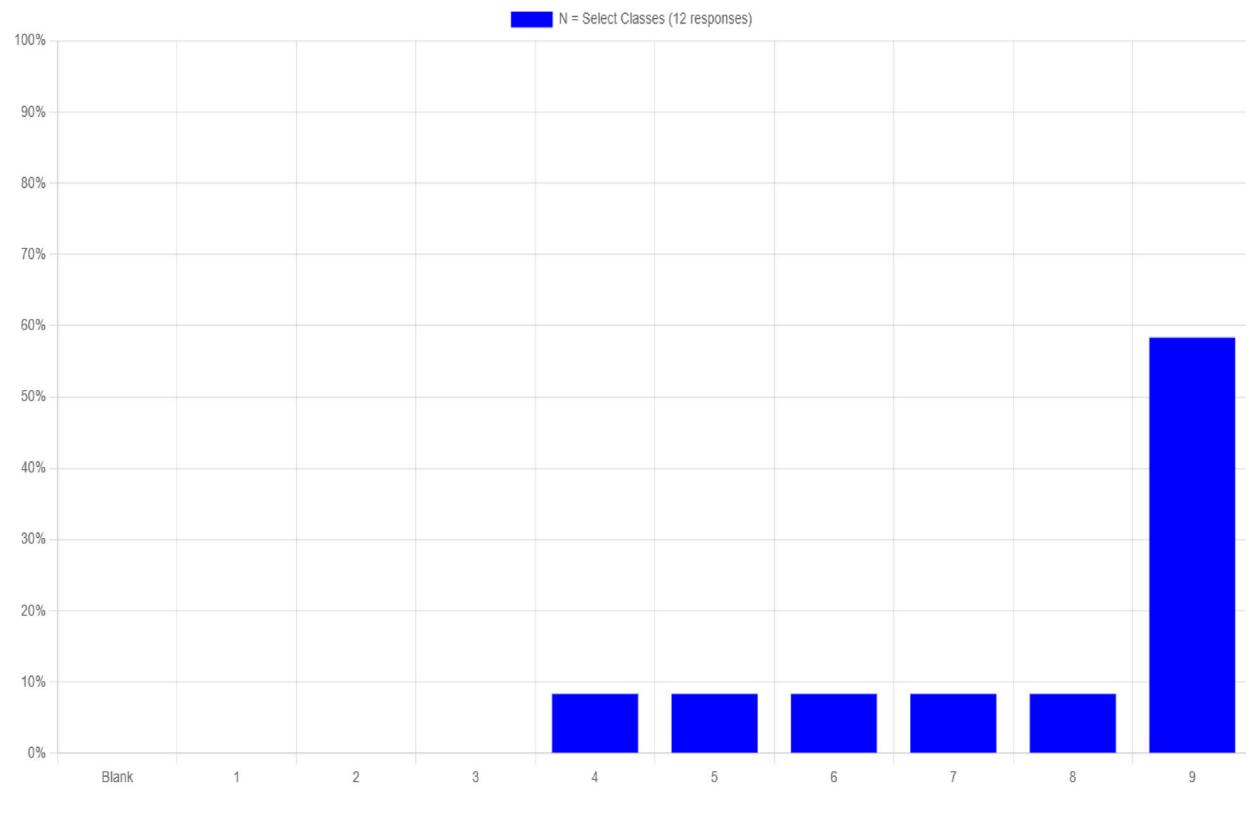

The simulation scenarios were challenging.

I found simulation based training to be more helpful than an online presentation alone.

N = Select Classes (12 responses)
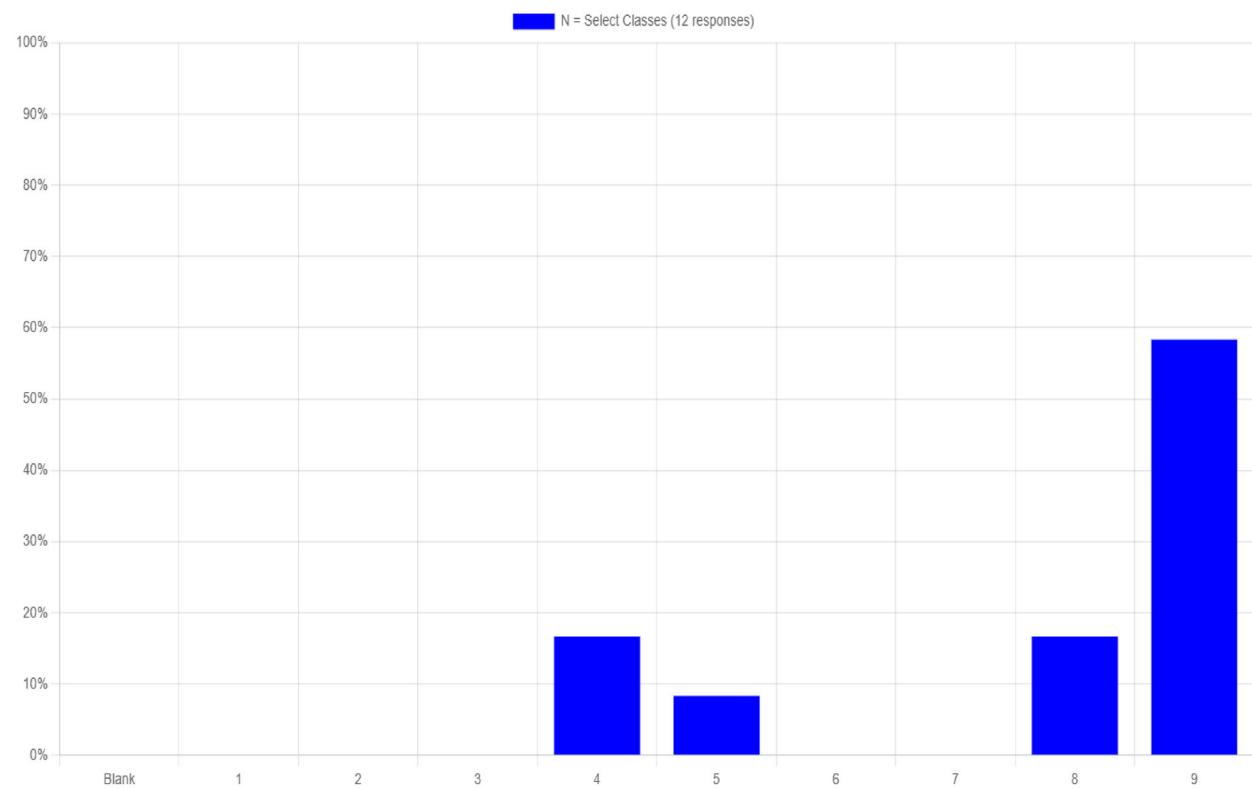

Additional Comments.
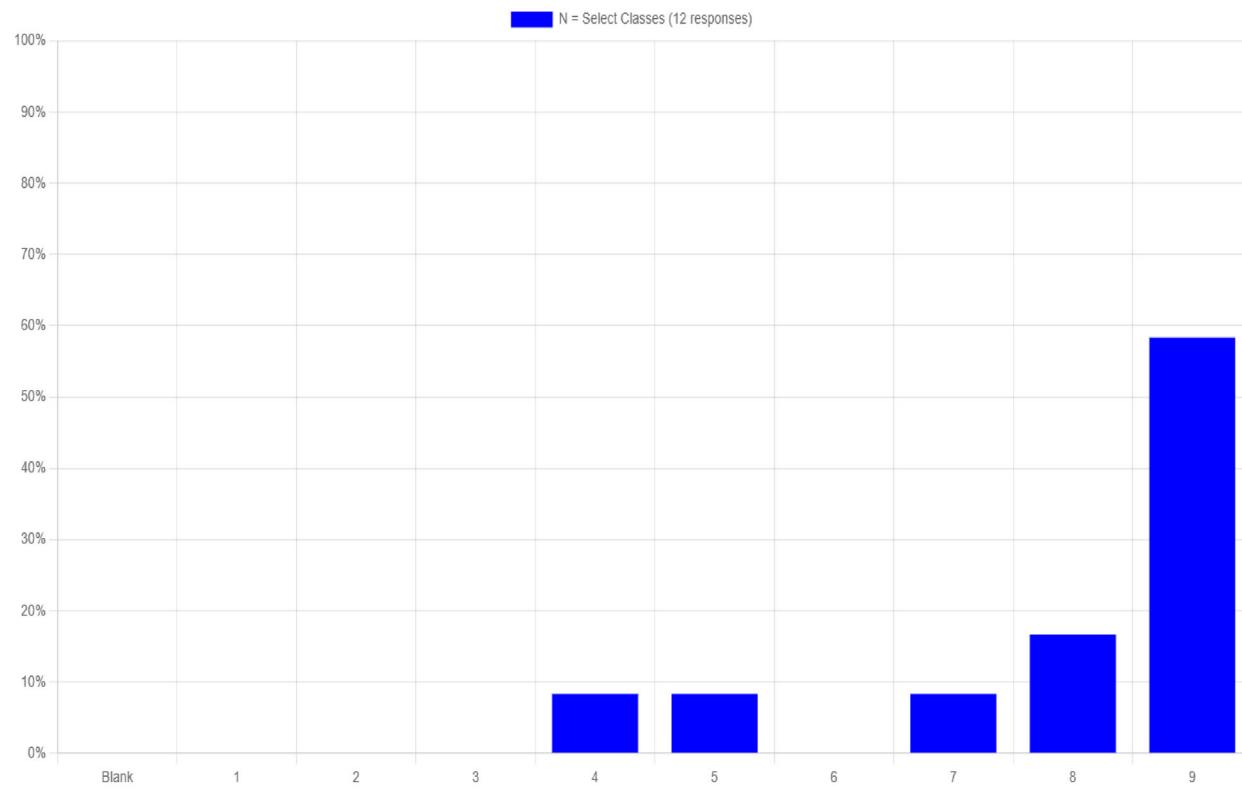

I am a technologist so the class is beyond my scope of practice nor can I administer any meds

This course is more geared towards nursing and physicians
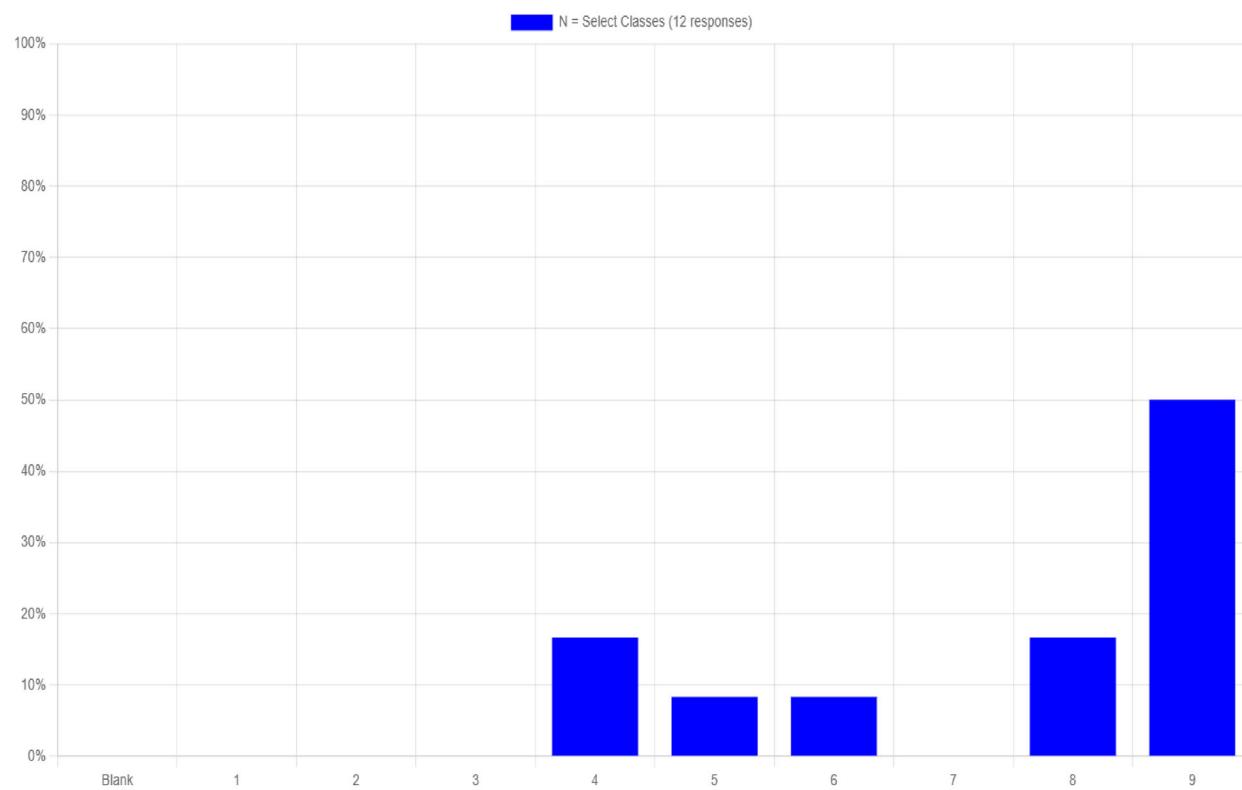

The online course curriculum was helpful.

N = Select Classes (12 responses)
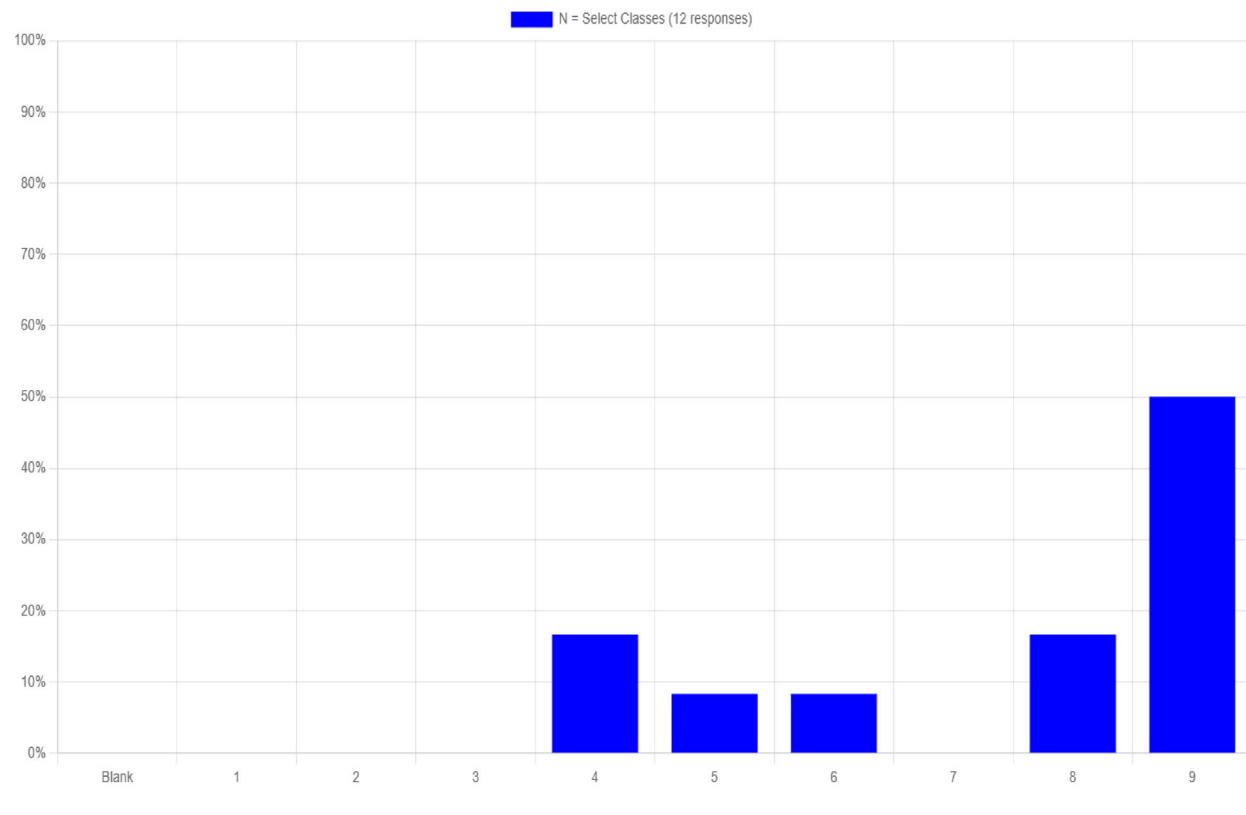

The online course curriculum was well-organized.

Effectiveness of education you received.

|	Blank	1	2	3	4	5	6	7	8	9
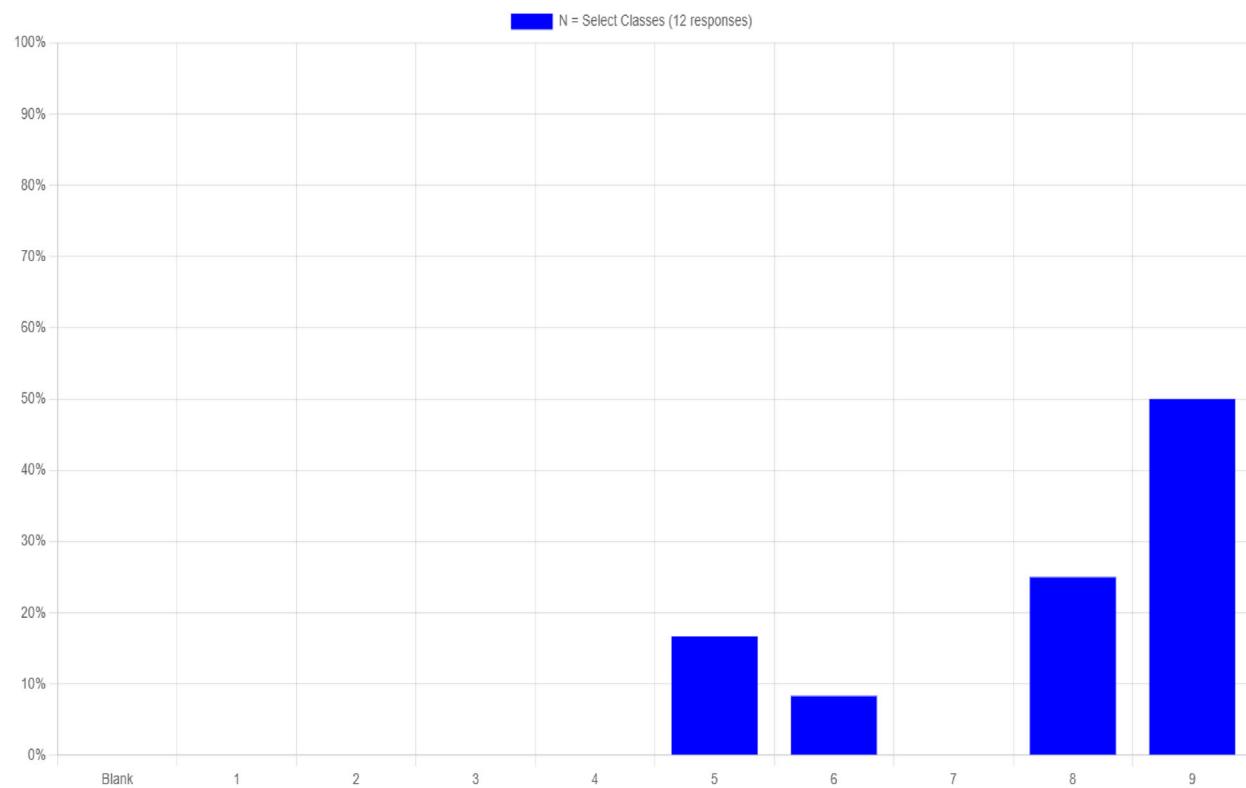

The assessment tool accurately measures course objectives.
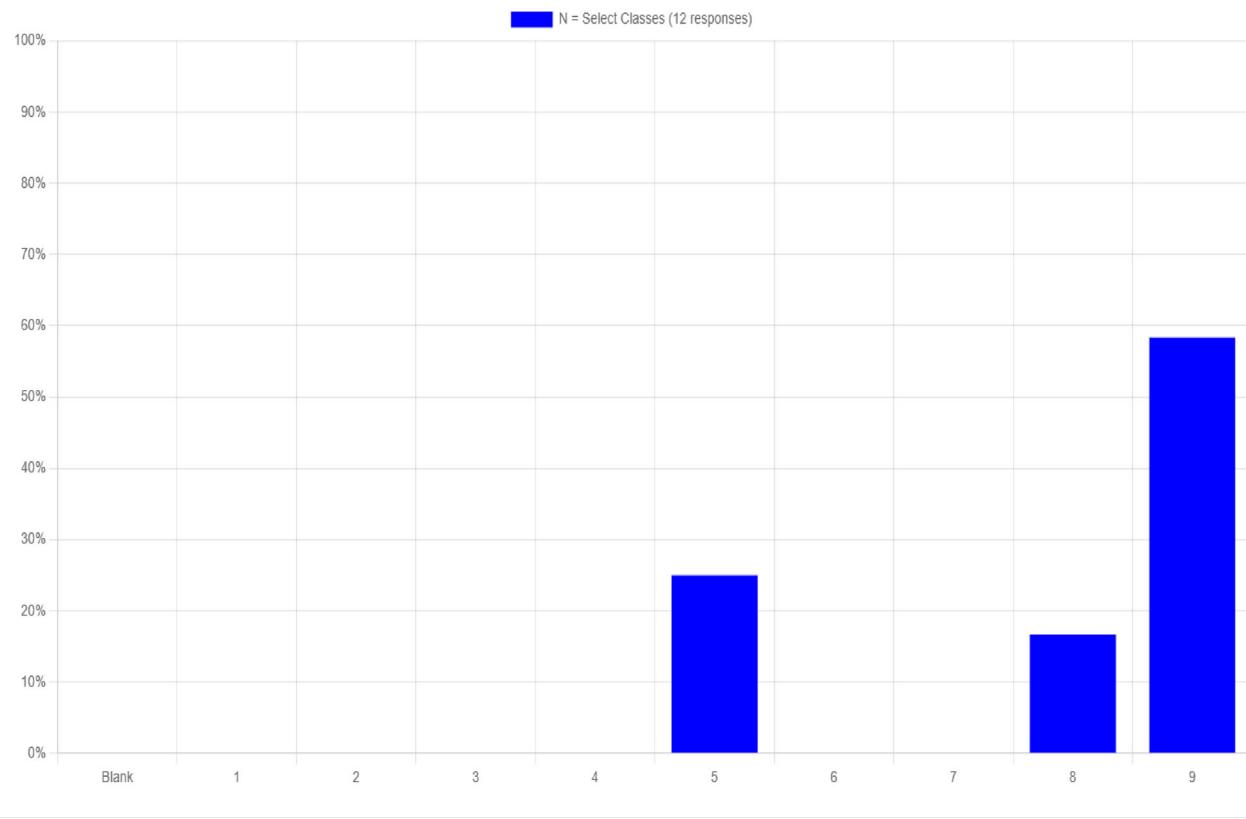

Additional Comments.
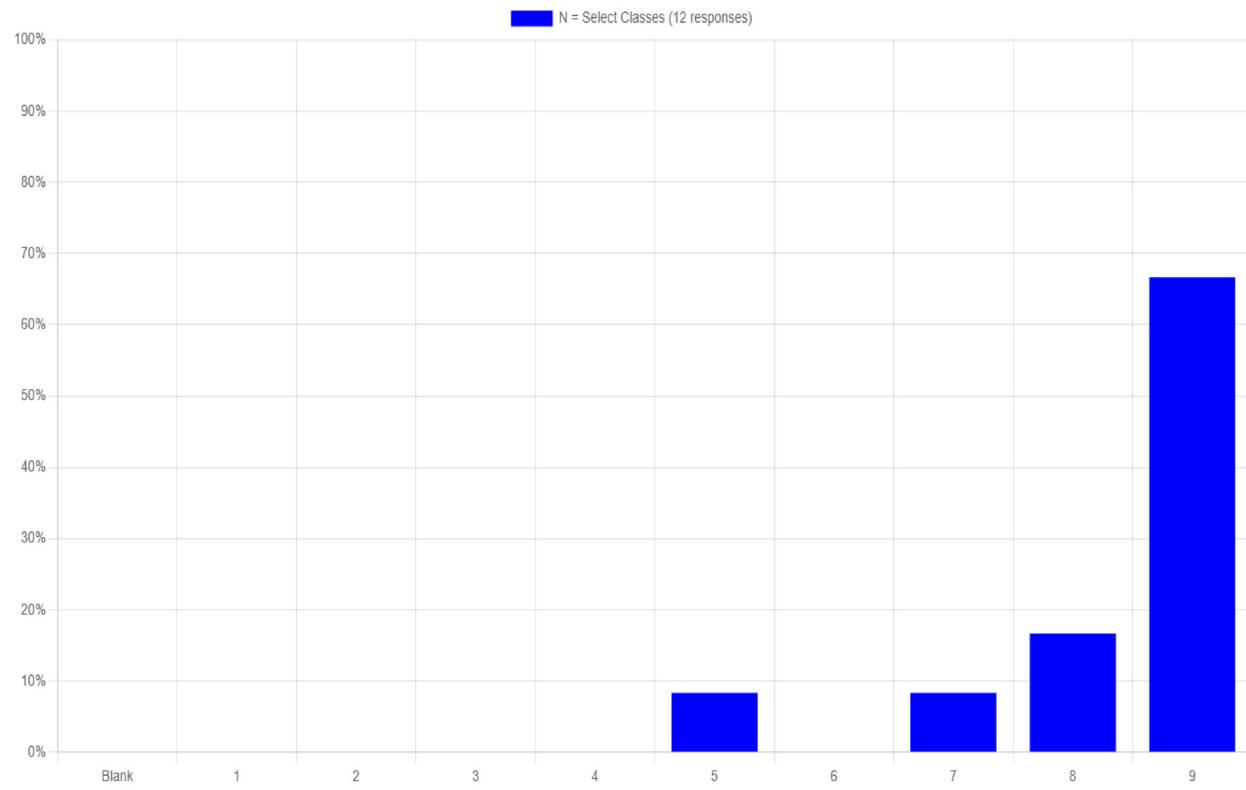

The discussion of my performance was helpful.

The debriefing experience allowed me to see my mistakes.

The debriefing was completed in a professional, non-personally threatening manner.

Additional Comments.

Would be help for technologist to have a separate class within their scope of practice

WISER website usability.
