## INTEGRATING TRAUMA INFORMED CARE INTO SUICIDE RESPONSE

### Suicide Prevention Training

The Integrating Trauma Informed Care into Suicide Response course will describe the role of trauma in both risk for suicide behaviors and in coping with suicide loss. It is a **one-hour virtual training** primarily designed for those who work with people at risk for suicide, such as health care providers and social service professionals.

The curriculum covers the role of trauma in suicide risk, the SAMHSA principles of trauma informed care, as well as specific trauma informed strategies to utilize with survivors of suicide.

Trainings are open to anyone and will be delivered virtually, via Zoom.
