

Pennsylvania Perinatal Quality Collaborative

**PA PQC Annual Meeting  
Maternal Health Symposium**

May 19, 2026

# Continuing Education Information

---

In support of improving patient care, this activity has been planned and implemented by the University of Pittsburgh and The Jewish Healthcare Foundation. The University of Pittsburgh is jointly accredited by the Accreditation Council for Continuing Medical Education (ACCME) and the American Nurses Credentialing Center (ANCC), to provide continuing education for the healthcare team. **9.0 hours is approved for this course (3.0 hours for Day 1 and 6.0 hours for Day 2).**

As a Jointly Accredited Organization, University of Pittsburgh is approved to offer social work continuing education by the Association of Social Work Boards (ASWB) Approved Continuing Education (ACE) program. Organizations, not individual courses, are approved under this program. State and provincial regulatory boards have the final authority to determine whether an individual course may be accepted for continuing education credit. University of Pittsburgh maintains responsibility for this course. Social workers completing this course receive up to **9.0 continuing education credits (3.0 hours for Day 1 and 6.0 hours for Day 2).**

# Disclosures

---

**All individuals** in a position to control the content of this education activity have disclosed all financial relationships with any companies whose primary business is producing, marketing, selling, re-selling, or distributing healthcare products used by or on patients. All of the relevant financial relationships for the individuals listed below **have been mitigated**

- Mackenzie Kemp, MSW, MPH – Gilead grant support to organization to operationalize universal opt-in HIV and Hepatitis screening
- Michele Tedder, MSN, RN, BCC – Consultant for Malama Health

**No other members** of the planning committee, speakers, presenters, authors, content reviewers and/or anyone else in a position to control the content of this education activity have relevant financial relationships with any companies whose primary business is producing, marketing, selling, re-selling, or distributing healthcare products used by or on patients.

# Disclaimer

---

The information presented at this Center for Continuing Education in Health Sciences program represents the views and opinions of the individual presenters, and does not constitute the opinion or endorsement of, or promotion by, the UPMC Center for Continuing Education in the Health Sciences, UPMC / University of Pittsburgh Medical Center or Affiliates and University of Pittsburgh School of Medicine. Reasonable efforts have been taken intending for educational subject matter to be presented in a balanced, unbiased fashion and in compliance with regulatory requirements. However, each program attendee must always use his/her own personal and professional judgment when considering further application of this information, particularly as it may relate to patient diagnostic or treatment decisions including, without limitation, FDA-approved uses and any off-label uses.

# Opening Remarks

---

TIM RADER, DIRECTOR

PENNSYLVANIA DEPARTMENT OF DRUG AND ALCOHOL PROGRAMS,  
BUREAU OF OPERATIONAL EXCELLENCE

## Program Updates

---

JENNIFER CONDEL, SCT(ASCP)MT  
SENIOR PROGRAM MANAGER, PERINATAL HEALTH  
PA PQC

# Learning Objectives

---

- Discuss strategies for social determinants of health (SDOH) screening, setting patient referral expectations, and building localized referral relationships
- Describe maternal- and neonatal-specific domains of SDOH screening
- Identify opportunities for improvement in existing SDOH screening and referral processes

**Mission:** The PA PQC provides quality improvement support to healthcare teams to improve the standard of care for pregnant and postpartum people and babies.

**Vision:** Every birthing person and baby in Pennsylvania receives equitable, safe, and optimal care.

The PA PQC accomplishes its mission while maintaining our core values...

Equity

Lived  
Experience

Evidence-Based  
Practice

Data-Driven  
Approaches

Collaboration

# New PA PQC Advisory Group Co-chairs

2026-2029

Jessica Miller, MSN, CNM  
Lead Midwife, Guthrie Robert Packer  
PA PQC Maternal Co-chair

Kimberly Costello, DO, MMM, CPE, FAAP  
Neonatologist, UPMC Neonatology  
PA PQC Neonatal Co-chair

# 2026 Funding Partners

The Health Resources and Services Administration (HRSA), Department of Health and Human Services (HHS) provided financial support for this conference. The contents are those of the author. They may not reflect the policies of HRSA, HHS, or the U.S. Government.

Funding for this conference was made possible (in part) by SAMHSA. The views expressed in written conference materials or publications and by speakers and moderators do not necessarily reflect the official policies of the Department of Health and Human Services, nor does the mention of trade names, commercial practices, or organizations imply endorsement by the U.S. Government.

Data Update  
2025-2026

# Objective to Achieve by March 31, 2026

**GOAL:** At least **50 birth hospitals and NICUs** meet the **Bronze designation\*** for the April 2025 to March 2026 implementation period

**55** teams received a Bronze Designation or higher

- 10 Bronze
- 4 Silver – Patient Voice
- 11 Silver – Health Equity
- 30 – Gold

To earn a Bronze designation, teams must complete all 5 quality improvement milestones for at least 2 of the 4 quarters during the implementation year for a specific initiative.

# Birthing facilities who have begun work on a system for screening & diagnosis of pregnant and post-partum individuals for sepsis

**Goal:** Increase from **69%** to **80%** of participating hospitals who have *begun work on a system for screening and diagnosis* of pregnant and postpartum people for sepsis

# Birthing facilities who have begun work on a system for screening & diagnosis of pregnant and post-partum individuals for sepsis

**Goal:** Increase from **69%** to **80%** of participating hospitals who have *begun work on a system for screening and diagnosis* of pregnant and postpartum people for sepsis

## Birthing facilities who have begun the process to perform multidisciplinary systems level reviews

**Goal:** Increase from **77%** to **85%** of participating hospitals who have ***begun the process to perform multidisciplinary systems level reviews*** on cases of sepsis that occur during pregnancy, birth, and the postpartum period

## Birthing facilities who have begun the process to perform multidisciplinary systems level reviews

**Goal:** Increase from **77%** to **85%** of participating hospitals who have *begun the process to perform multidisciplinary systems level reviews* on cases of sepsis that occur during pregnancy, birth, and the postpartum period

# Birthing facilities who have linguistically/culturally appropriate patient education materials on urgent postpartum warning signs

# Sepsis Successes in 2025-26 (Q2→Q1 2026)

**28% → 51%** sites have a standard order set for sepsis evaluation/management fully in place

**22% → 47%** sites have ED standardized verbal screening as part of triage process fully in place

**59% → 81%** sites have rapid access to laboratory results fully in place

**41% → 74%** who have begun compiling a comprehensive list of resources & referral pathways for obstetric sepsis

A close-up photograph of a baby's face peeking over the white vertical slats of a crib. The baby has light skin and blue eyes, looking directly at the camera. The background is a soft, out-of-focus grey.

2026-2027 Implementation Year

---

# 2026-2027 Implementation Year

---

July 1

June 30

*Enrollment is open! Closes June 30, 2026*

- Enrollment packet is on the website
- Designations:
  - Application opens: August 3, 2026
  - Application closes: August 31, 2026, 11:59pm

# 2026-2027 Implementation Year: Initiatives

---

## *Family Approach: Transitions & Connections*

- A Family Approach to Postpartum Discharge Transition
- Prenatal and Postpartum Depression Screening and Follow-up
- A Family Approach to Services and Transitions for Opioid Use & Exposure
- Replicating Prenatal Plans of Safe Care Replication in Rural Counties

### **2 Sprints:**

Fall 2026: Patient Care Discussions/Event Debriefs  
Spring 2027: Comprehensive Postpartum Visit Template

# A Family Approach to Postpartum Discharge Transition (AIM Safety Bundle)

---

## KEY INTERVENTIONS:

- Verbal screening as part of **ED triage process**
- Process to conduct **debriefs with patients** after a severe event
- System for **scheduling postpartum and specialty visits** prior to discharge or within 24 hours
- Comprehensive **postpartum visit template** to share with affiliated outpatient sites
- A system for **scheduling the initial pediatric visit** prior to discharge
- **Screen for family risks factors**
- **Referrals** for follow-up services including medical, behavioral, and support services

# A Family Approach to Services and Transitions for Opioid Use & Exposure

---

## KEY INTERVENTIONS

- **Standardize discharge and transition process for people with OUD and NAS** to:
  - provide opioid reversal medication kits and education
  - educate families on harm reduction strategies
  - make warm handoff referrals to postpartum and newborn services
  - provide evidence-based guidelines
  - offer consultations for breastmilk feeding options
  - follow-up with individuals with the families after discharge to ensure connections to maternal and newborn services
- **Train** hospital leadership and staff on non-stigmatizing, **trauma-informed** OUD and NAS care

# Prenatal and Postpartum Depression Initiative

---

## KEY INTERVENTIONS

- **Universal depression screening process**
- **Provider training** for screening, diagnosis, and follow-up
- **organizational suicide risk response**
- **Co-occurring screening process** for positive depression screens
- **Follow-up protocol** based on the severity of symptoms and co-occurring health needs
- Protocol to **close the loop on referrals**
- Inclusion of **lived experience or community resources feedback** for QI
- **Consistent perinatal depression messaging** with partnering outpatient and community settings

# PA PQC QI Coaches
