

Cardiac Resources

PedHeart Resource

www.heartpassport.com

This is a key reference source for congenital heart disease.

Prepaid access for UPMC staff.

1. Visit the above website & click 'subscribe'
2. Click option 2, organizational license
3. Choose your unique username & password
4. Use organization code: UPMC & coupon code: UPMC2010
5. Add your @chp.edu or @upmc.edu email address

Cove Point Foundation

www.pted.org

This is a free website related to congenital heart disease that covers many anomalies & surgeries. It has some similar diagrams as PedHeart Resource. Since this is accessible by all- families can also use this resource.

Heartpedia App

This is a free app you can download to your phone through Cincinnati Children's. The anomalies are more limited, however, the 3D models of the heart are particularly interesting & helpful. If one of the anomalies applies, this could be a good resource for families also.

UPMC Resources

Continue to utilize our UPMC Children's Hospital Policies & Clinical Effectiveness Guidelines (CEG). The drug formulary is another useful resource for medication indications, dosage, etc.

PLS Modules

Pediatric Learning Solutions (PLS) Modules are available through Learning in HR direct.

Some cardiac specific titles include:

- PLS Acquired Heart Disease in Children
- PLS Congenital Heart Disease: an Overview
- PLS Congenital Heart Disease: Cyanotic Defects
- PLS Congenital Heart Disease: Acyanotic Defects
- PLS Arrhythmia Recognition (multiple)
